# INTRODUCTION

This is the 52<sup>nd</sup> in the series of 'Annual Statistical Reports' published by the Sri Lanka Tourism Development Authority (SLTDA). The reports were designed to provide data on Sri Lanka's tourism industry on a consistent basis, which is useful for both for evidence-based decision making for the development and promotion of the tourism industry. The data compiled and published in this report cover the following areas:

- a) Trends and characteristics of inbound tourism to Sri Lanka
- b) Scheduled airline operators and passenger movements
- c) Accommodation industry- Capacity and its utilization
- d) Income and employment
- e) Outbound Tourism- Sri Lankans travelling to overseas destinations
- f) Growth of travel and tourism
- g) Revenue from tourism

The Annual Statistical Report 2020 is presented in seven parts. Part I is an introduction including definitions, sources of information, global tourism trends and tourism demand. Part II provides a detailed account of the structure of tourist traffic received during 2020 showing the principal markets, seasonality of traffic, mode of transport, travel motivation, duration of stay, age and sex, occupation, passenger movements and scheduled airline operations. Part III presents sectorial information including a statistical analysis of accommodation showing the capacity on offer, its distribution and occupancy rates part IV provides volume of tourism employment while public sector revenue and foreign travel by Sri Lankans are presented in part V and VI. Part VII is the statistical appendix.

## 1.1 Definitions

### **(a) Visitor:**

A visitor is a traveller taking a trip to a main destination outside his/her usual environment, for less than a year, for any main purpose (business, leisure or other personal purpose) other than traveling to be a full time student or to be employed by a resident entity in the country or place visited (IRTS 2008, 2.9). A visitor (domestic, inbound or outbound) is classified as a tourist (or overnight visitor), if his/her trip includes an overnight stay, or as a same-day visitor (or excursionist) otherwise (IRTS 2008, 2.13).

## **(b) International visitor:**

An international traveller qualifies as an international visitor with respect to the country of reference if: (a) he/she is on a tourism trip and (b) he/she is a non-resident travelling in the country of reference or a resident travelling outside of it (IRTS 2008, 2.42).

The term “International Excursionist” (same day visitor) refers to an “International Visitor”<sup>01</sup>, who does not stay overnight in the country visited.

To clarify further, the following are excluded from the definition of “International Visitor”:

1. All persons arriving with a specific purpose of engaging themselves in gainful occupation, full-time studying or to establish residence in Sri Lanka irrespective of their length of stay.
2. Diplomatic personnel.
3. Crews of ships and aircraft even if they stay for one night or more.
4. Dependents of temporary immigrants and children below 3 years.

In this report the term “Visitor”, “Tourist” and “Excursionist” are used for “International Visitor”, “International Tourist” and “International Excursionist” respectively. In Sri Lanka’s tourism statistics, excursionists consist almost exclusively of passengers on sea cruises, who come on shore for purposes of sightseeing, shopping, etc. while the ship is in harbour.

## **(c) Tourist Arrivals:**

Every single visit (or entry) of a tourist to the country either in the course of the same trip or in the course of different trips is counted as an “Tourists Arrival”, provided the visit (or entry) lasts at least one night in the country (N.B. those who do not cross the frontiers are not regarded as visitors).

## **(d) Tourist Night:**

A night spent in Sri Lanka by a tourist in any type of immobile accommodation.

## **(e) Guest Night:**

A night spent in a Tourist Hotel, Rest-House or Guest-House approved by the Sri Lanka Tourism Development Authority, as being suitable for occupation by foreign visitors.

## **(f) Tourist Hotels:**

All Tourist Hotels, which are registered under Sri Lanka Tourism Development Authority, can be taken under this category. There are three main categories of Tourist Hotels; Classified, Unclassified & Boutique Hotels. Statistics for some of the other categories (i.e. Small Luxury Hotels/ Boutique Hotels) are added to the report from year 2014

## **(g) Supplementary Accommodation:**

Guest-Houses which are approved by the Sri Lanka Tourism Development Authority as being suitable for occupation by foreign visitors. Home stay units consist of tourist bungalows, rented tourist home, rented tourist apartments, heritage hotels and heritage bungalows.

## **(h) Tourism Expenditure**

Tourism expenditure refers to the amount paid for the acquisition of consumption goods and services, as well as valuables, for own use or to give away, for and during tourism trips (UNWTO).

## **(h) Official Receipts:**

Official Receipts constitute the foreign exchange purchases and acceptances by authorized dealers and commercial banks from foreign visitors either directly or indirectly.

## **1.2. Sources of Information**

### **a) Tourist Statistics:**

Passenger arrival reports generated by Electronic Travel Authorization System (ETA) compiled by the Department of Immigration and Emigration.

### **b) Excursionist Statistics:**

Passenger arrival reports compiled by the Department of Immigration and Emigration

### **c) Accommodation Statistics:**

Monthly reports obtained by the Sri Lanka Tourism Development Authority from the registered accommodation establishments.

### **d) Passenger Statistics:**

Passenger arrival and departure reports compiled by the Department of Immigration and Emigration.

### **e) Air Traffic Statistics:**

Quarterly returns obtained by the Sri Lanka Tourism Development Authority from the scheduled airlines, which operate flights to Sri Lanka.

### **f) Statistics on Official Tourist Receipts:**

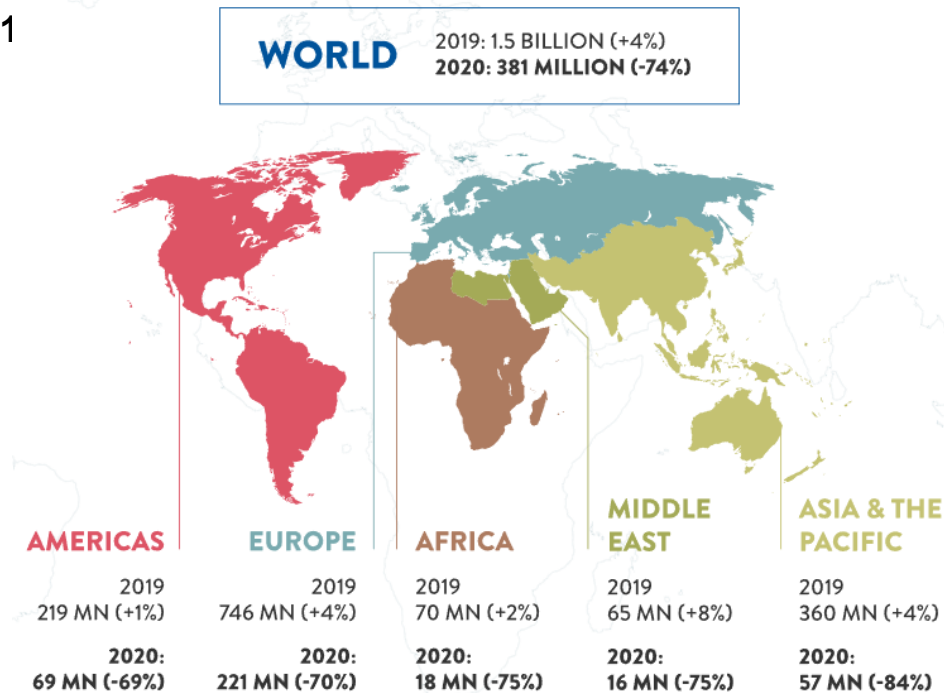

Information calculated from the Survey of Departing Foreign Tourists from Sri Lanka.

### **g) Employment Statistics:**

Annual Surveys conducted by the Sri Lanka Tourism Development Authority among all registered Tourist Establishments; viz. Accommodation and Catering Establishments, Travel and Transport Agencies, Recreational Clubs, Tourist Shops, Airlines and National Tourist Organizations as well as information from the licensing system.

## 1.3 Global Tourism

Figure 1

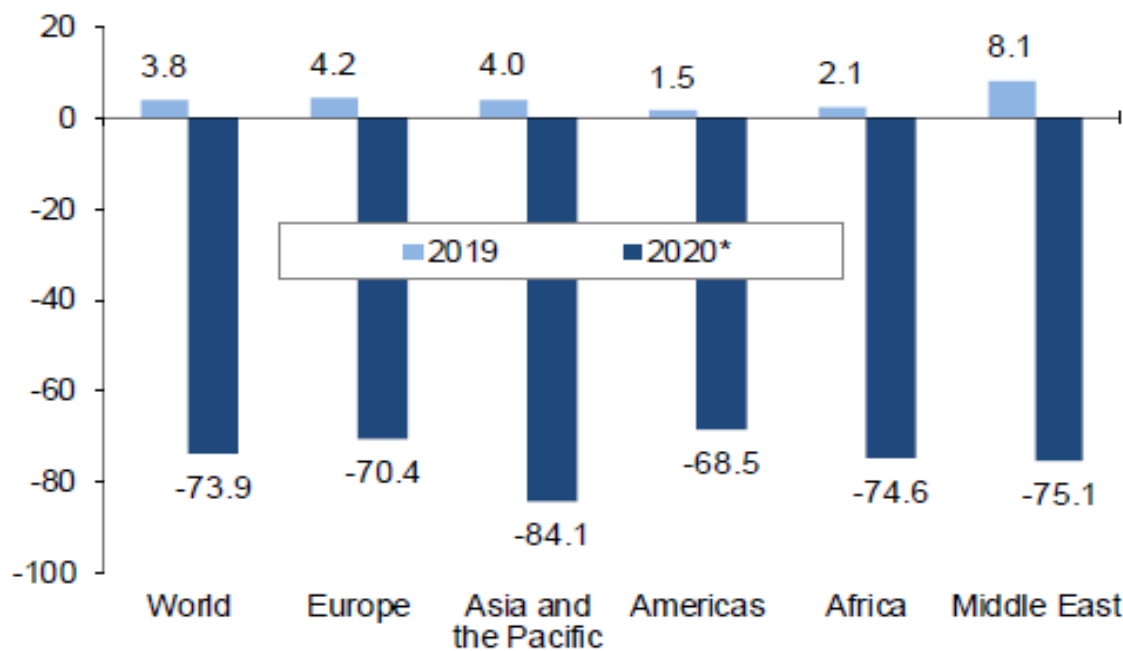

Source: UNWTO

The rapid evolution of COVID 19 and its palpable impact brought about an unprecedented crisis to the travel and tourism industry. The contraction in international Tourist arrivals amounted to -74%, over the previous year due to widespread travel restrictions and massive drop in demand. The estimated loss of international tourism receipts recorded was USD 1.3 trillion while 100 to 120 million direct tourism jobs were at risk. Though travel and tourism has proved to be a resilient industry throughout the history, the repercussions of the pandemic were extensive unlike in the case of SARS epidemic in 2003 in which the arrivals were contracted by 0.4% and in the case of the global economic crisis in which the arrivals contracted by 4%.

The growing impacts were gradually felt by all the countries around the globe with the evolution of the virus and its transmission in every nook and corner. The highest decrease in arrivals (84%) was reported from Asia and Pacific region, being the first region to suffer the ramifications of an unprecedented pandemic. A drop of 75% was recorded from Middle East and Africa while Europe recorded a 70% decrease in arrivals. The lowest decrease of 69% was recorded from Americas. (World Tourism Barometer, Volume 19, January 2021)

## 1.4 Tourism Demand- Volume and Value, Sri Lanka

### Volume

Tourist arrivals to Sri Lanka during the year 2020 amounted to 507,704 registering a decline of 73.5 % since 2019. The unprecedented health crisis caused by the COVID 19 pandemic caused a heavy blow to the industry bringing the industry to almost to a halt. Reported number of nights spent in 2020 by international tourists was 4,315,484 showing a decline of 78.3% with an average duration of 8.5 nights (Refer Table 23 & 24)

Chart 2: Tourist arrivals – 2001 to 2020

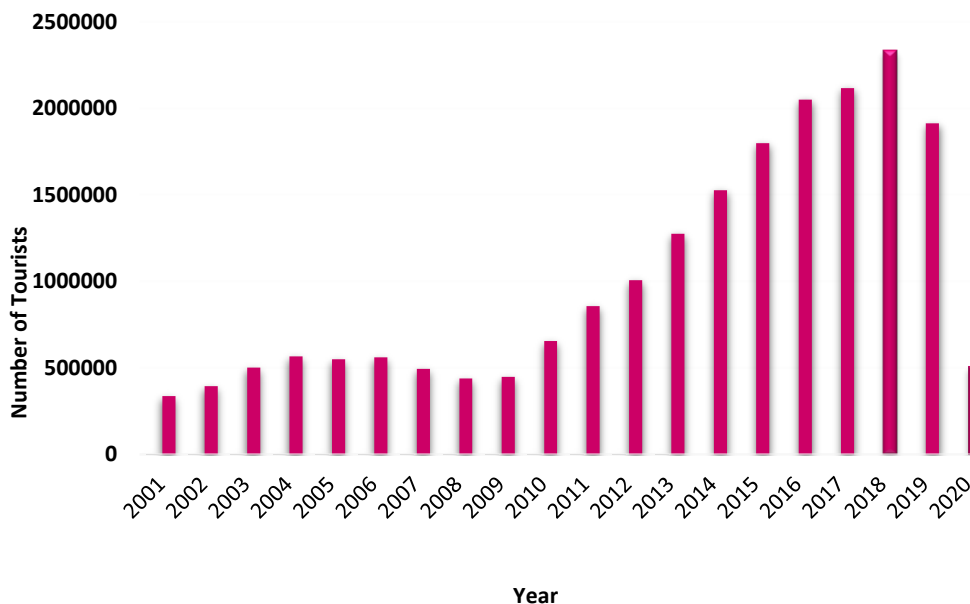

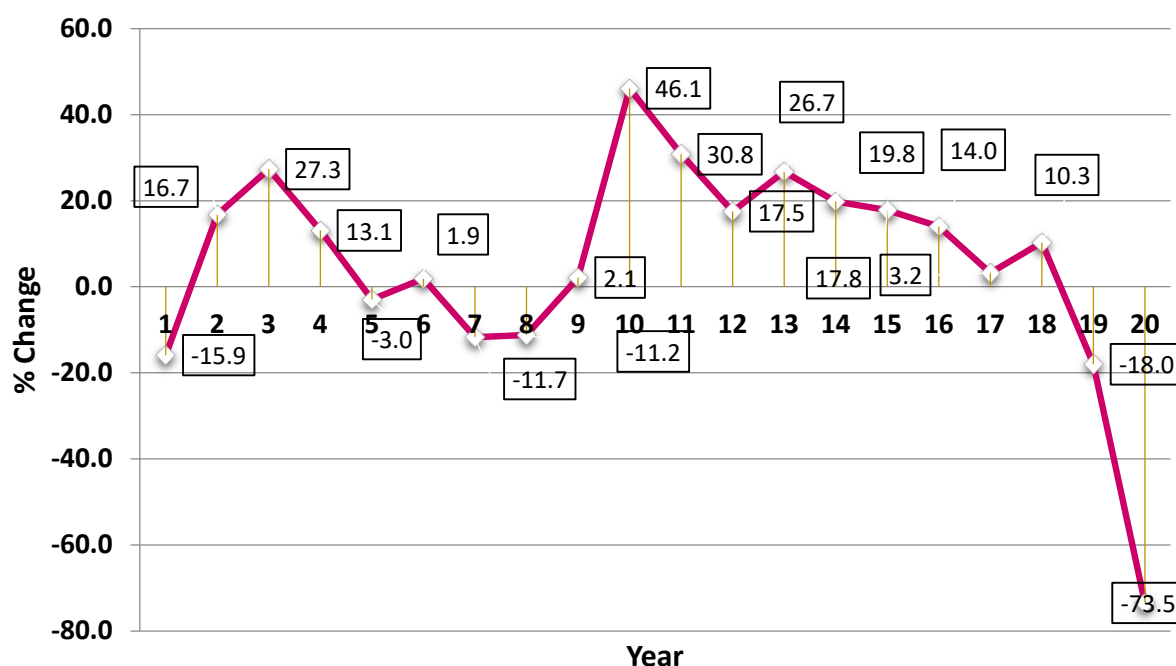

Chart 3: Tourist arrivals growth change- 2000 to 2020

## Value

Tourism which remained at the third position as one of the highest foreign exchange earners in 2019 has made an abrupt contraction and come down to the seventh position. Accordingly, share of foreign exchange earnings from the tourism sector decreased to 3.3% of the total foreign exchange earnings, compared to 13.7% recorded in the previous year.

The official tourist receipts for 2020 were estimated at Rs. 124,189 million as compared to Rs. 646,362 million in 2019, with a decline of 80.8%.

The per capita tourist receipts per day amounted to 158.1 US\$, showing a decrease of 12.7% as compared to US\$ 181 in 2019.

# TOURIST TRAFFIC

## 2.1 Markets

Tourist arrivals from different regional markets for the past consecutive years is indicated in Table 1, 2, 4 and Table III. Europe is the largest regional market represented in foreign arrivals in the year 2020.

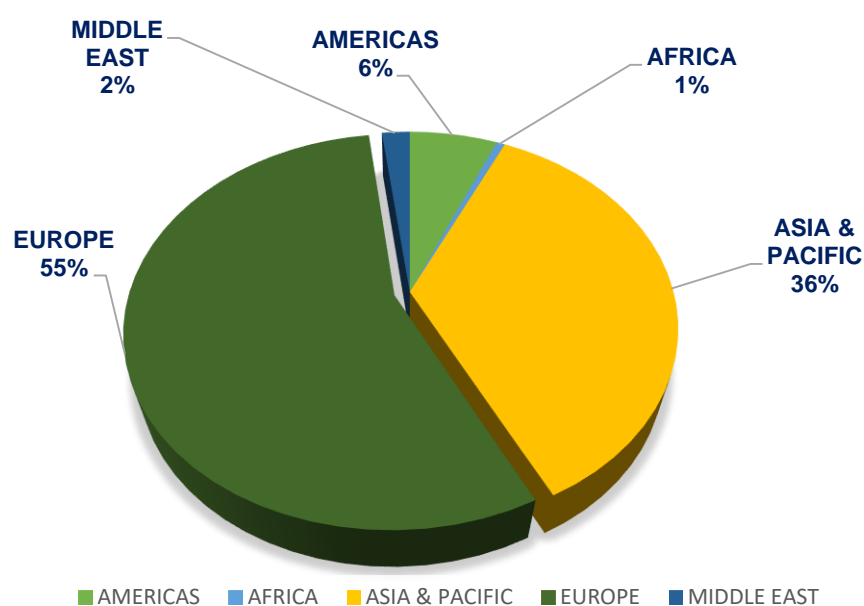

**Table III: Tourist arrivals by region – 2019 & 2020**

Region	2018	2019	2020	20/19
AMERICAS	137,626	127,423	31,843	(75.0)
AFRICA	14,873	15,094	2,880	(80.9)
ASIA & PACIFIC	1,091,800	839,470	181,154	(78.4)
EUROPE	1,017,861	887,572	281,596	(68.3)
MIDDLE EAST	71,636	44,143	10,231	(76.8)
	<b>2,333,796</b>	<b>1,913,702</b>	<b>507,704</b>	<b>(73.5)</b>

Source: Department of Immigration and Emigration, analysis by SLTDA

Overall, it is noteworthy that all regions showed significant decline in the number of tourist arrivals (Table 3). Being the major source market, Europe recorded a decline of 68.3% while Asia and Pacific which was the second major market showed a decline of 78.4% compared to the previous year. Middle East region recorded a decline of 76.8% while Americas recorded a decline of 75%.

**Chart 6: Distribution of market shares (percentage) – 2020**

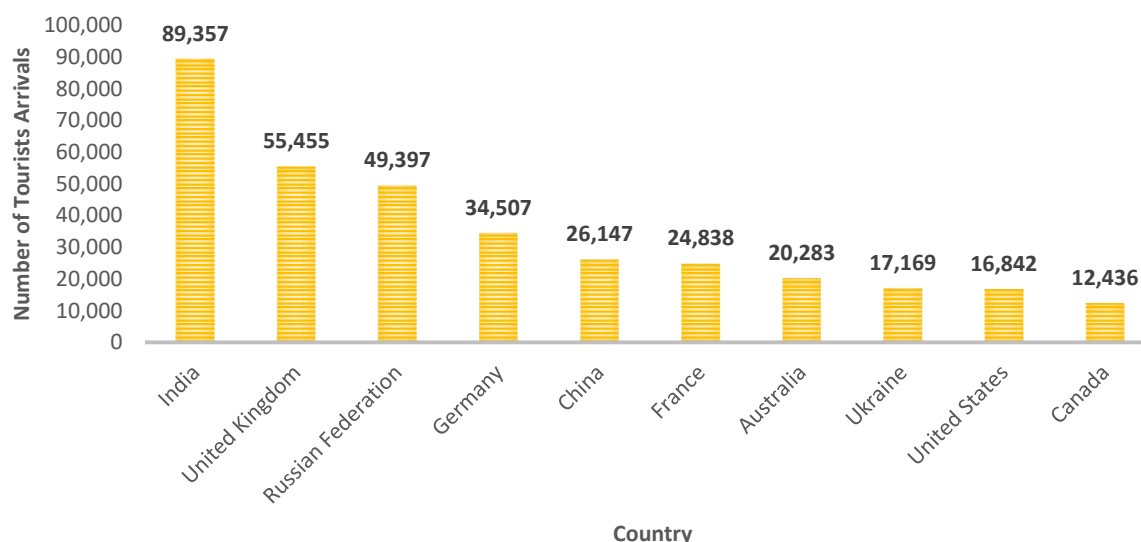

**Table IV: Relative importance of regional markets- 2019 & 2020**

Region	Market Share	
	2019	2020
AMERICAS	6.7	6.3
AFRICA	0.8	0.6
ASIA & PACIFIC	43.9	35.7
EUROPE	46.4	55.5
MIDDLE EAST	2.3	2.0
<b>TOTAL</b>	<b>100.0</b>	<b>100.0</b>

*Source: Department of Immigration and Emigration, analysis by SLTDA*

It is noteworthy that the market share of Europe had increased to 55.5% in 2020 from 46.4% in 2019 while the market share of all the other regions had decreased in comparison to 2019. It is noteworthy that the market share of Asia and Pacific has decreased to 35.7% in 2020 and this could be likely due to the pandemic situation that originated from this region.

**Chart 7: Top ten source markets – 2020**

An analysis of the ten major source markets revealed that tourists from India represented the largest number of international arrivals. United Kingdom was recorded as the second major country of origin for tourists with a share of 10.9% during 2020. Russian Federation was the third major source of tourists to the country (9.7%), while Germany (6.8%) China (5.2%) become fourth and fifth in the top five markets. The top ten markets accounted for 68.2% of the total tourist traffic to the country in 2020. It is noteworthy that China had moved further down from third position to fifth position in 2020 in comparison to last year.

Table V: Top ten source markets- 2019 & 2020

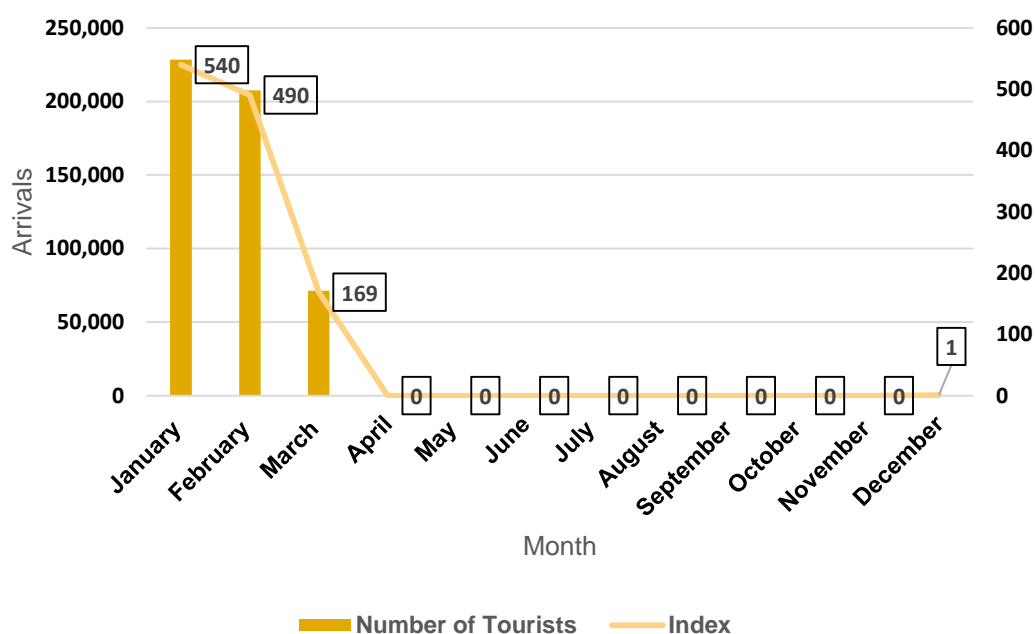

2019				2020			
Rank	Country of Residence	Tourist Arrivals	Percentage Share	Rank	Country of Residence	Tourist Arrivals	Percentage Share
1	India	355,002	18.6	1	India	89,357	17.6

9	Maldives	60,278	3.1	9	United States	16,842	3.3
10	Canada	48,729	2.5	10	Canada	12,436	2.4
<b>TOTAL</b>		<b>1,301,225</b>	<b>68.0</b>	<b>TOTAL</b>		<b>346,431</b>	<b>68.2</b>

## 2.2 Seasonality of Arrivals

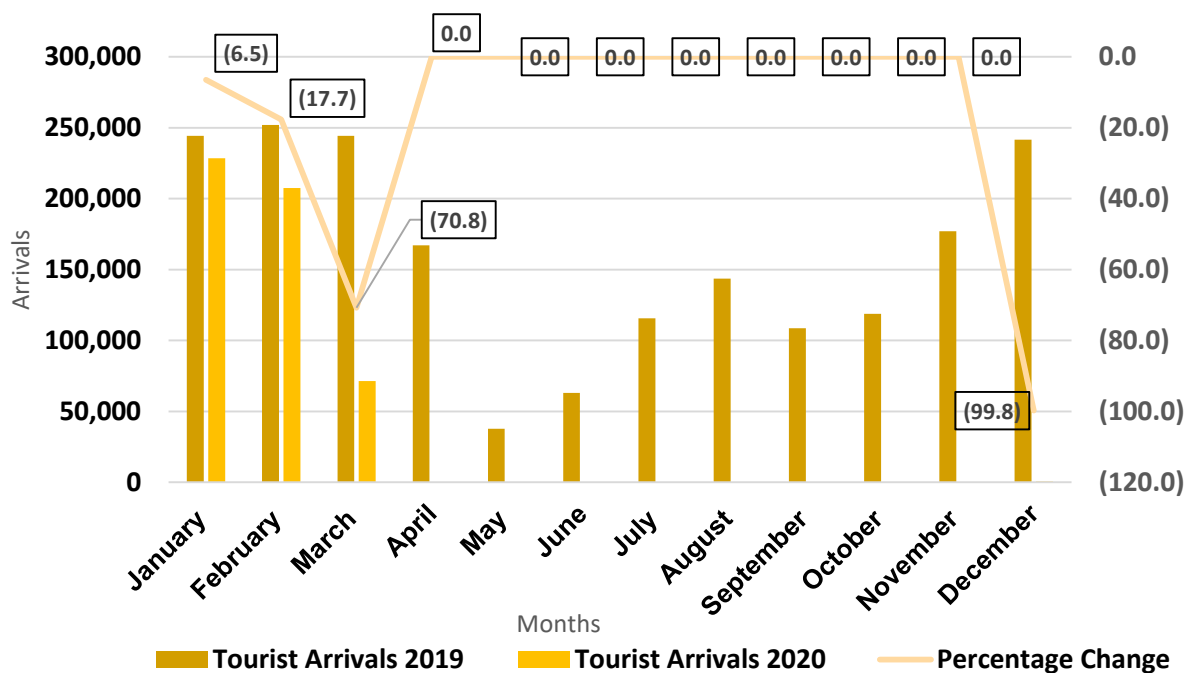

Table 3, 4 in the Statistical Appendix shows the monthly variation in tourist arrivals received from various countries.

The index of arrivals reached above 100 during the months of January, February, and March. With the outbreak of COVID- 19 pandemic, steps were taken to close all the borders resulting in zero arrivals since December. The highest number of arrivals were recorded in the month of January with a seasonal index of 540.

Chart 8: Seasonality of traffic – 2020 (Seasonal Indices)

**Chart 8 a: Tourist arrivals & percentage change 2020/2019**

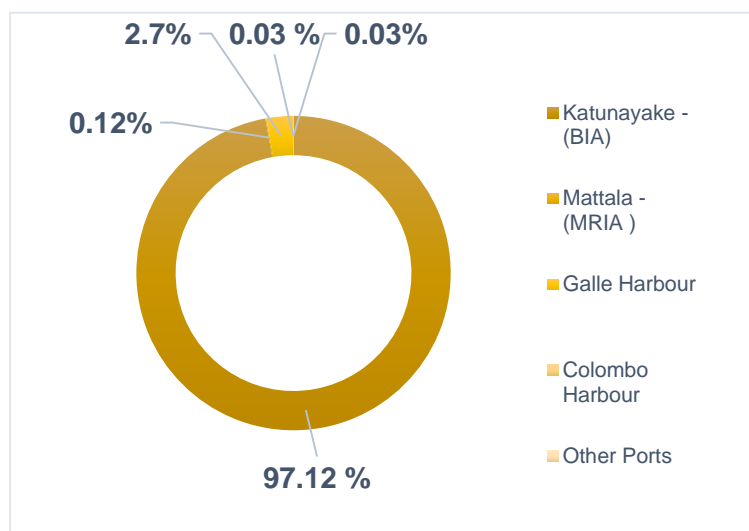

### 2.3 Mode of Transport and Port of Arrival

Table 5 in the Statistical Appendix shows detailed statistics of passenger movements categorized according to mode of transport and port of arrival. During the year 2020, 97.2% of the tourists came to Sri Lanka by air travel, following a similar distribution rate as in the previous year. The balance 2.8 % arrived in the country by sea, mostly through the Galle harbour. In comparison to 2019, the arrivals by sea has declined drastically and could be likely due to the termination of cruise liners, owing to pandemic related conditions. (Table 5, Statistical Appendix).

Passenger movements by ports show that the Bandaranaike International Airport in Katunayake continued to handle the majority of tourist traffic with 97.1% of the total arrivals and departures. The balance was reported from Mattala Rajapaksha International Airport (0.12%), Galle Harbour (2.7%), Colombo harbour (0.03%) and other ports (0.03%).

**Chart 9: Distribution by ports of arrival (percentage) – 2020**

## 2.4 Purpose of Visit

Tourist arrivals classified by the expressed purpose of visit to Sri Lanka are shown in Table 9 and 10 in the Statistical Appendix. The data for the purpose of visit has been analyzed by using Electronic Travel Authorization system for the year 2020 and reported by the Department of Immigration and Emigration.

The table 9 shows that 87.52% of the tourists who visited the island in 2020 had come for pleasure – i.e. for holiday, recreation, touring, etc. 7.6% of tourists had come for visiting friends and relatives followed by business related travels (2.7%) and MICE (Meetings, Incentives, Conventions, Exhibitions) (1.1%) purposes. The proportion of tourists who came to Sri Lanka for sports and health proposes constituted 0.25 % and 0.67% respectively. 0.03% of tourists reported coming for educational purposes while nearly 0.01% reported visiting for religious purposes. The proportion of tourists who came for official purposes 0.02% and other purposes constituted 0.01 %.

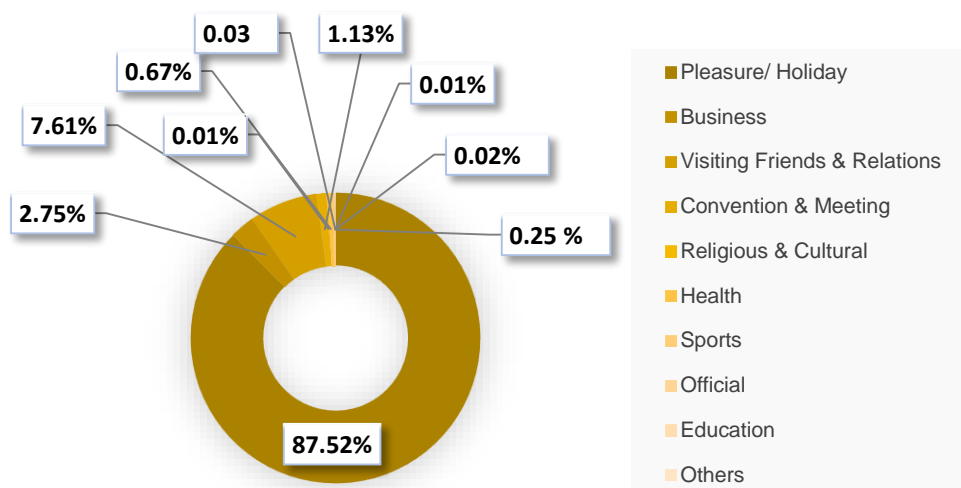

Out of the total pleasure travelers, the highest proportion of tourists came from Central and Eastern Europe at 21.7% followed by South Asia 19.8% and Western Europe 16.5%. The largest proportion of business travelers were from South Asia (58%) followed by North east Asia (12.4%) and Northern Europe (7%). The proportion of tourists who came for visiting friends and relatives are mainly from Northern Europe, North America and South Asia and constituted 20.5%, 17.9% and 16% respectively.

The highest proportion of MICE tourists came from South Asia (52.7%) while, 74% of tourists from Western Europe have visited for health purposes.

The largest proportion of travelers who have come for sports and education purposes are from South Asia at 38% & 45.9% respectively.

India as the major tourist source market, produced 89,357 tourists to Sri Lanka in 2020 which is comparatively different from all the other markets that constituted 82% for pleasure, 6.4% for visiting friends and relatives (VFR), and 8.4% for business related travel, 2.6% for MICE and 0.3% for sports. It is noteworthy that out of the health travelers the highest proportion of tourists (53%) came from Germany while the highest proportion of tourists who came for visiting friends and relatives (VFR) (17%) was recorded from United Kingdom.

**Chart 10: Distribution by purpose of visit (Percentage) - 2020**

Source: Department of Immigration and Emigration

## 2.5 Duration of Stay

Statistics on duration of stay by the country of residence of tourists are shown in table 11 and 12 in the Statistical Appendix.

The table 11 shows that the average duration of stay for tourists in Sri Lanka during the year under review has declined from 10.4 to 8.5 nights in 2020. The highest (37.43%) percentage of tourists had stayed 8 to 14 nights. 35.42% of tourists stayed for 4-7 days while 17.97% of tourists stayed for 1-3 days.

An analysis of average duration of stay by region of origin reveals that the highest average duration of stay (12.2 nights) has been recorded from Western Europe. Tourists from Northern Europe and Central & Eastern Europe recorded an average duration of stay of 11.1 and 10.7 nights respectively. The lowest average duration of stay of 5.7 nights has been recorded from tourists from South East Asian region.

In terms of individual countries, the longest average duration of stay has been recorded from Netherlands (13.4 nights) followed by Germany, Austria, Denmark, and Estonia (13.2, 12.8, 12.6, 12.5 nights) respectively.

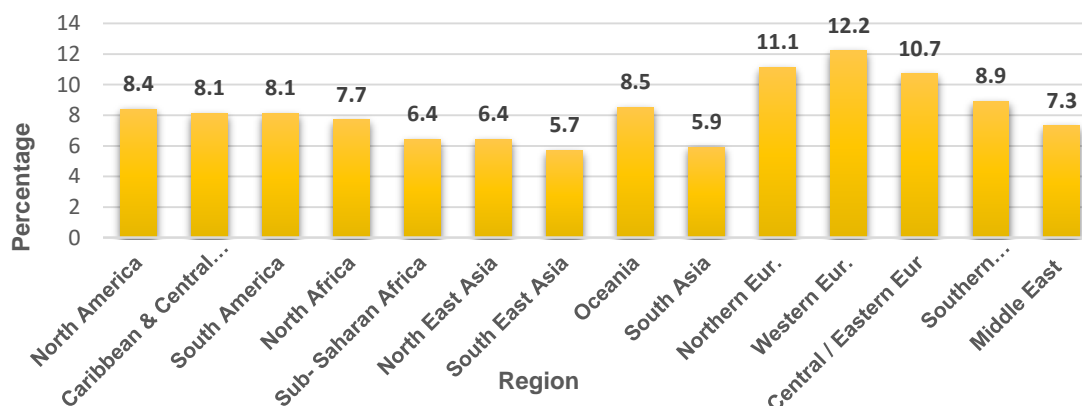

The total number of nights spent by the 507,704 tourists who visited the country in 2020 amounted to 4,315,484 (See Table 12). This was a decrease of 78% when compared with 19,902,501 nights recorded for the previous year (See Table 12).

By the end of 2020, foreign tourists spent a total of 2,103,268 nights in Sri Lankan hotels (i.e., Classified Hotels, Unclassified Hotels, Boutique Hotels) This was a decline of 78.5%, when compared with the figure of 9,772,128 nights recorded in 2019. (See Table 21).

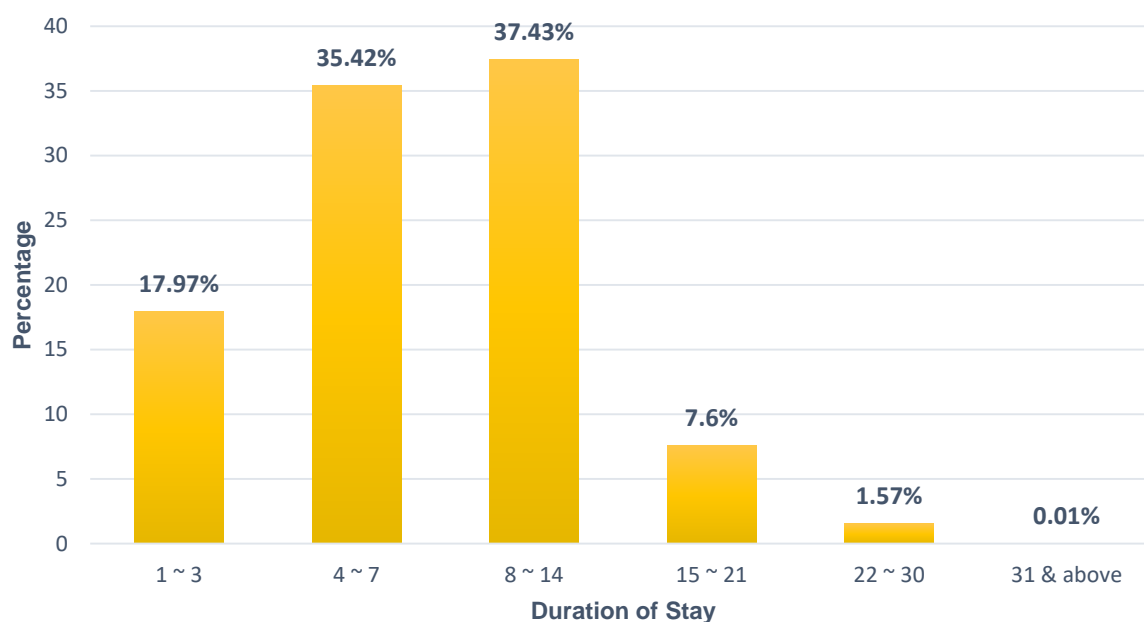

Tourist nights recorded in supplementary establishments (i.e. Boutique Villa, Guest Houses, Rest Houses, Home Stay Units, Tourist Bungalows, Rented Tourist Homes, Rented Tourist Apartments and Heritage Bungalows/Homes etc.) in 2020 was 1,472,633 showing a decline of 72.5% when compared with 5,364,773 nights recorded in year 2019(See Table 21).

It is noteworthy that only 49% of the total nights tourists spent in Sri Lanka they stayed in hotels while 34% of nights were spent in supplementary establishments. In the remaining 17% of nights, tourists used other accommodation units and private houses (see Table 21)

**Chart 11: Distribution of average duration of stay (nights) - 2020**

**Chart 12: Distribution of period of stay (percentage) - 2020**

Source: Department of Immigration and Emigration

## 2.6 Age and Sex

An analysis of 2020 arrivals by the age and sex composition of the tourists who visited Sri Lanka are shown in Table 13 and 14 in the Statistical Appendix.

The age composition shows the preponderance of incoming visitors are in the age brackets 30-39 and 60 years and above where 43.7% of the tourists were in these two age brackets. Of the total tourists, 8.1% were below 20 years in age, 16.8% were in the age group 20-29 years, 24.5% between 30-39 years, 15.9% between 40-49 years, 15.5% between 50-59 years and the remaining 19.2% were 60 years and above.

Further analysis of arrivals by age reveals that the highest arrivals in the age brackets of 3-19 (21.8 percent), 20-29 (22.7 percent), 30- 39 (27.5 percent), 40 - 49 (29.4 percent) and 50-59 (21.2 percent) have been recorded from South Asian region. Highest arrivals (20.1 percent) in the age category of 60 & above is recorded from Western Europe.

The sex distribution of the tourists who visited Sri Lanka during the year shows that 51.9% of tourists were male while 48.1 were female.

It can also be seen from the Table 14 in the Statistical Appendix that in 2020 the highest proportions of female tourists were recorded from Western Europe (18.6 percent), South Asia (17.1 percent) and Northern Europe (14.7 percent). On the other hand, the highest proportions of male tourists have been recorded from South Asia (29.1 percent), Western Europe (15.3 percent) and Northern Europe (13.3 percent.)

Chart 13:

**Distribution of tourists by sex and region (Percentage)-2020**

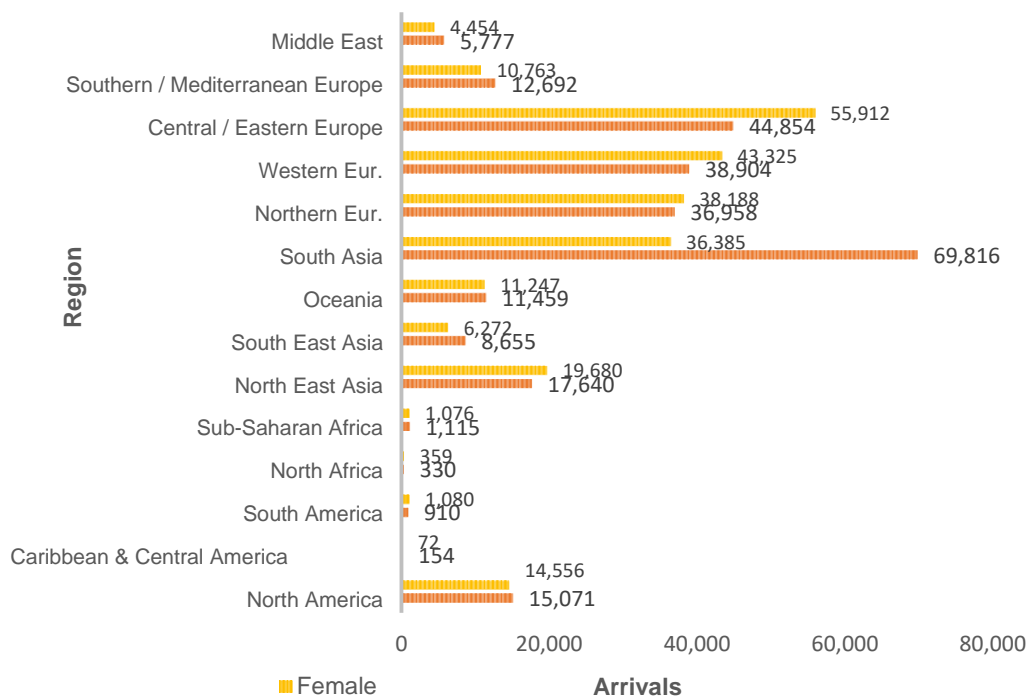

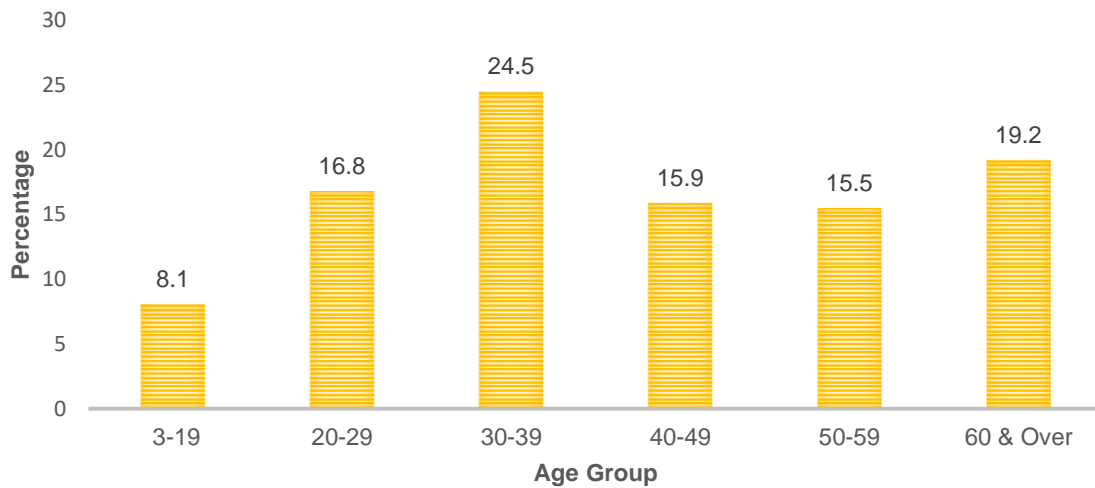

Chart 14: **Distribution of tourists by age group (percentage) –2020**

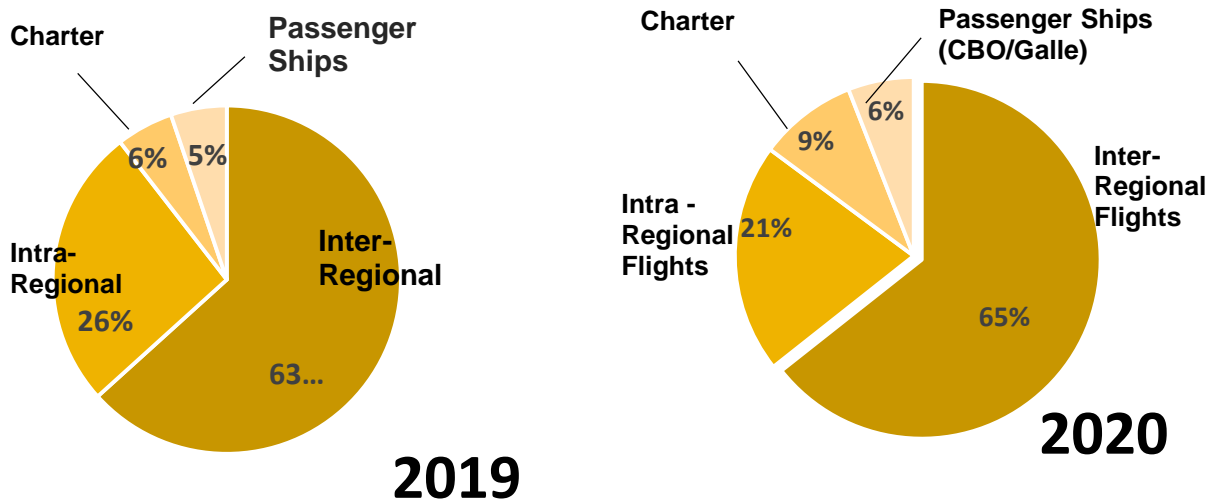

## 2.7 Arrivals by Carrier

Statistics showing the capacity operated by all airlines are shown in Tables 8 and 8a in the Statistical Appendix.

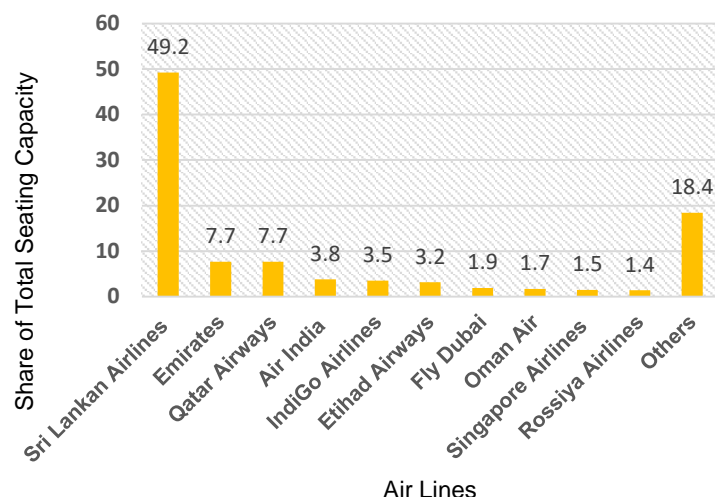

During the year 2020, 34 airlines including the national carrier Sri Lankan Airlines operated flights to Sri Lanka (Table 17 and Table 8). The number of flights operated by these carriers amounted to 624 per week. The number of average seats available per week was 143,296. Top three airlines carrying 270,978 tourists to Sri Lanka were Sri Lankan Airlines, Emirates and Qatar Airlines.

In analyzing the arrivals by carrier, Inter- regional flights have contributed to 63% of the arrivals while intra - regional flights and charter flights contributed to 26% and 6% respectively (Table 7). During the year under review there were around 45 charter airlines operating to Sri Lanka.

**Chart 15: Distribution of tourist arrivals by type of carrier (percentage) – 2019-2020**

**Chart 16: Distribution of total seating capacity by carrier (percentage)- 2020**

Rank	Air line	Percentage of Total Seating Capacity by Carrier per week
1	Sri Lankan Airlines	49.2
2	Emirates	7.7
3	Qatar Airways	7.7
4	Air India	3.8
5	IndiGo Airlines	3.5
6	Etihad Airways	3.2
7	Fly Dubai	1.9
8	Oman Air	1.7
9	Singapore Airlines	1.5
10	Rossiya Airlines	1.4
11	Others	18.4

## 2.8 Passenger Movement

The two-way Passenger traffic into and out of the country amounted to 1,746,730 for the year, through the main access point (BIA-Katunayake). This represents a decrease of 74.5% as compared to the two-way Passenger traffic of 6,838,540 recorded for the previous year (Table 31).

The analysis of the passenger traffic composition revealed that almost half of these passengers (56 %) were tourists. For both arrival and departures, Sri Lankan nationals accounted for 44% of the total traffic. (See Table 18)

## 2.9 Scheduled Airline Operations

During the year 2020, there were 30 scheduled airlines operating flights to Sri Lanka including National Carrier, Sri Lankan Airlines (see Table 8). In terms of popularity the top three airlines used by tourists are Sri Lankan Airlines, Emirates and Qatar Airlines. It is noteworthy that Sri Lankan Airlines has been patronized mostly by Indians. Further tourists from United Kingdom have mostly used the mode of sea in arriving to Sri Lanka. The tourist arrivals by charter carriers are shown in Table 8a in the Statistical Appendix. It is noticeable that among charter carriers Azur Air has carried 12,720 passengers to Sri Lanka. This could be likely due to the growth momentum initiated after the pilot project with Ukrainian tourists

# ACCOMMODATION SECTOR

## 3.1 Accommodation Capacity

The establishments which provide accommodation for international visitors to Sri Lanka could be divided into three broad categories: tourist hotels<sup>1</sup>, supplementary establishments<sup>2</sup>, and other establishments<sup>3</sup>. At the end of the year 2020, the total number of establishments in the registered list of accommodation at SLTDA amounted to 3,019 with 42,750 rooms. The total capacity consisted of 484 tourist hotels and 2,535 supplementary establishments.

Compared with 2019, the accommodation capacity of tourist hotels increased by 2.1% from 474 to 484 units, while the number of rooms increased by 2.3% from 24,831 to 25,407 rooms in 2020. The capacity offered by the supplementary accommodation category increased by 18.2% from 2,145 to 2,535 units, while the number of rooms increased by 11.6% from 15,534 to 17,343 rooms (Table 21).

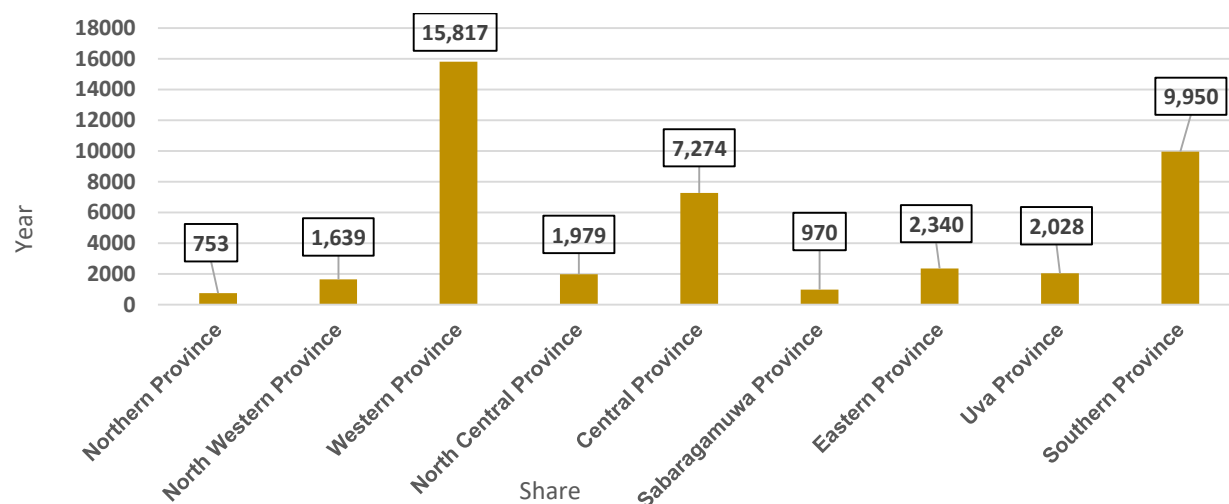

In 2020, the percentage distribution of room capacity of graded accommodation units by star category was 21% in the five-star category, 10% in four-star category, 10% in three-star category, 8.2% in two-star category, 6.7% in one-star category, 40% in the unclassified category, and 4.1% in boutique hotels (Table 23(a)).

The distribution of capacity available in 2020 by province and by districts is shown in Chart 18 I and Chart 18 II. Accordingly, Western province (37%), Southern province (23%) and Central province (17%) had the highest capacity. District wise, Colombo had 19.6% of the capacity on offer, while Galle and Gampaha had 14.9% and 9.3% capacity on offer respectively.

The distribution of guest rooms by size of accommodation and by resort areas is shown in Table 20 in the Statistical Appendix.

Chart 17:I

### Distribution of accommodation capacity by province – 2020

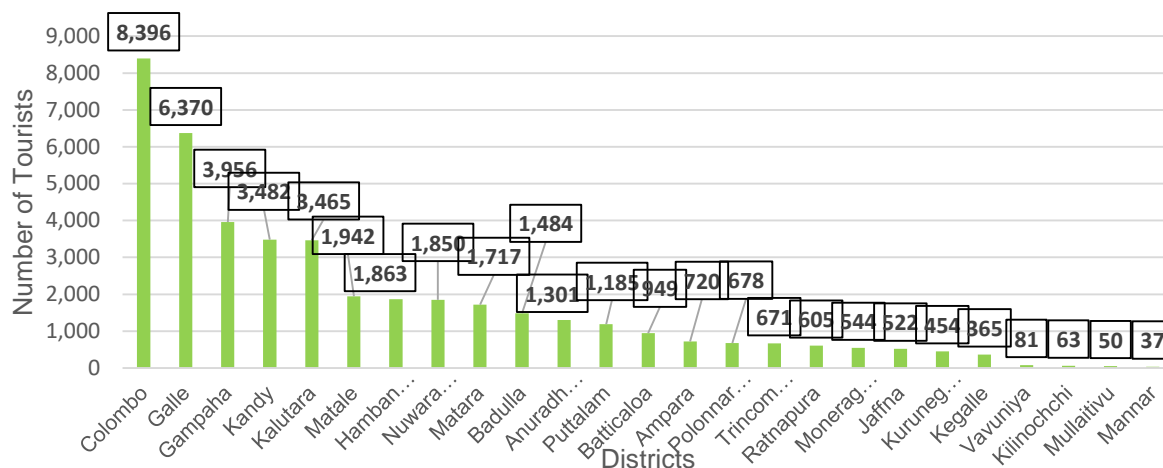

<sup>1</sup> Tourist hotels include Classified Tourist Hotels, Unclassified Tourist Hotels, Boutique Hotels and Boutique Villas.

<sup>2</sup> Supplementary establishments include Guest Houses, Rest Houses, Home Stay Units, Tourist Bungalows, Rented Tourist Homes, Rented Tourist Apartments and Heritage Bungalows/Homes act.

<sup>3</sup> Other establishments refer to those who are not formally registered with the Sri Lanka Tourism Development Authority. Currently there is no formal data on these facilities.

Chart 17. II

### Distribution of accommodation capacity by districts -2020

Tables 22 & 23 in the Statistical Appendix show monthly and annual occupancy rates by District. The overall annual room occupancy rate recorded for all accommodation in 2020 was 14.9%. The occupancy rate recorded for 2019 was 57.1%.

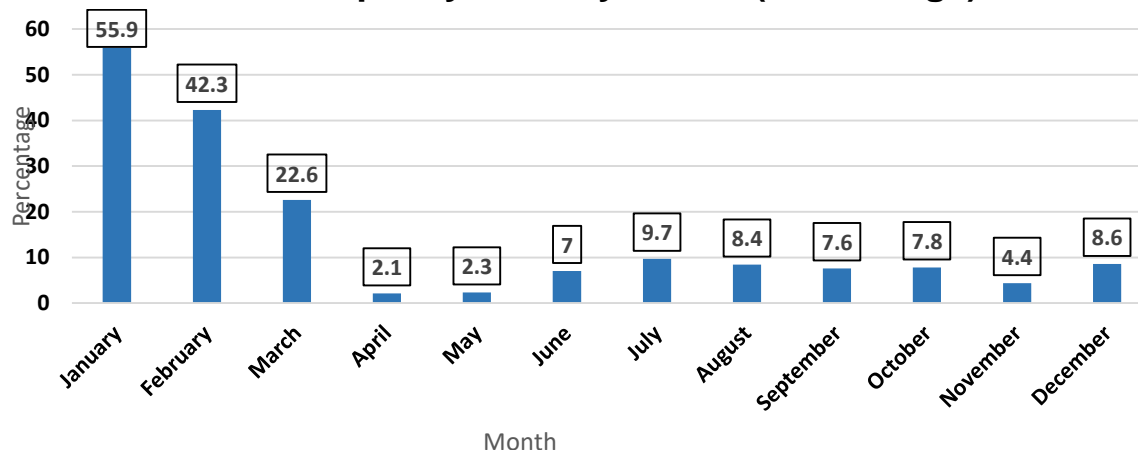

The highest occupancy rate was recorded in the month of January (55.9%) and the lowest in the month of April (2.1%). Thus, the variation in occupancy rates between the busiest and the least busy months was 53.8% points. The closure of borders resulting in no international tourist arrivals and fewer domestic tourists due to the pandemic situation, could be the likely reasons for the low occupancy rates.

District wise, Galle recorded the highest occupancy rate of 23.2%. Kandy recorded an occupancy rate of 22%, followed by Batticaloa (18.1%) Badulla (17.2%) Hambantota (16.9%).

## 3.2 Occupancy Rates

Jaffna	14.5
Kurunegala	15.7
Kegalle	9.1
Vavuniya	10.6
Kilinochchi	0
Mullaitivu	0
Mannar	0

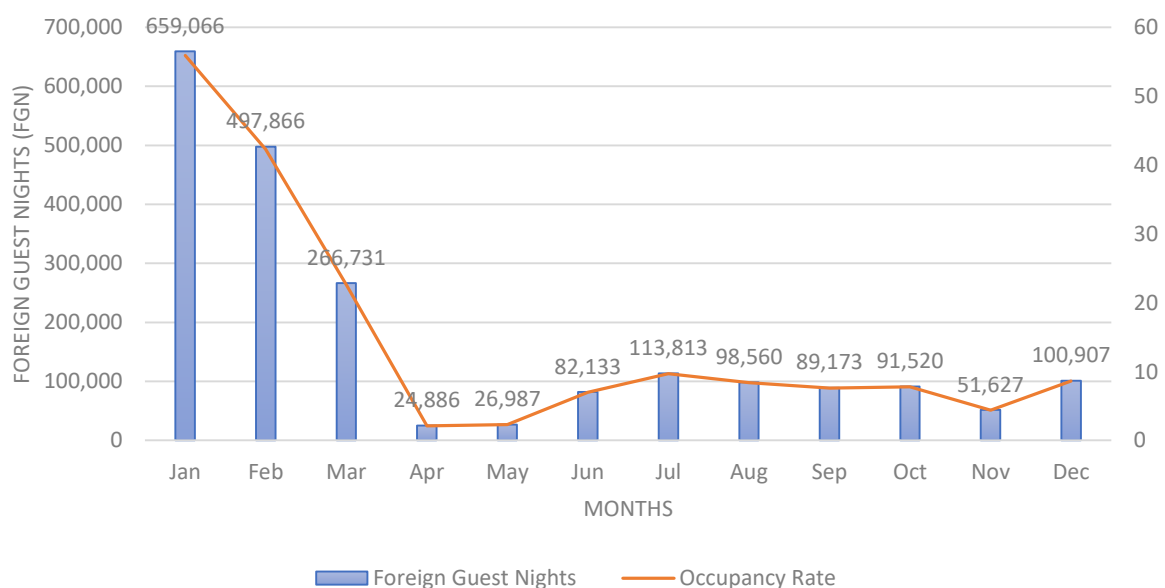

Detailed statistics showing the distribution of nights both foreign and local spent in accommodation establishments classified by month, by accommodation type and by tourist destination are shown in Table 23a, 24, 12 and 25 in the Statistical Appendix. In 2020, the total number of tourist nights recorded in the accommodation facilities (Tourists Hotels, Supplementary establishments and others) included in the analysis amounted to 4,315,484. This was a decrease of 78.3% when compared to 2019 (19,902,501). The number of nights foreign visitors spent in accommodation facilities registered with SLTDA throughout the island decreased by 76.3% from 15,136,901 in 2019 to 3,575,901 in 2020, while the local guest nights recorded a decrease of 27% from 2,279,948 in 2019 to 1,668,882 in 2020.

The distribution of guest nights by districts shows that 22.12% of the foreign guest nights have been spent in the Colombo. The proportion of foreign guest nights spent in the Galle was 20.54% followed by Kandy (10.19%) and Kalutara (9.37%) (Table 24). The local guest nights figures show a similar distribution. The largest proportion of nights local guests spent was reported from the Colombo (22.1%) followed by Galle (20.5%) and Kandy (10.2%) These three areas accounted for 53% of total nights local guests spent while traveling.

**Chart 20: Number of nights spent by foreign tourists and occupancy rates by month-2020**

# EMPLOYMENT

## 4.1 Employment

Table 27 in the Statistical Appendix shows the volume of employment by type of establishment and by broad categories of employees from 2018 to 2020.

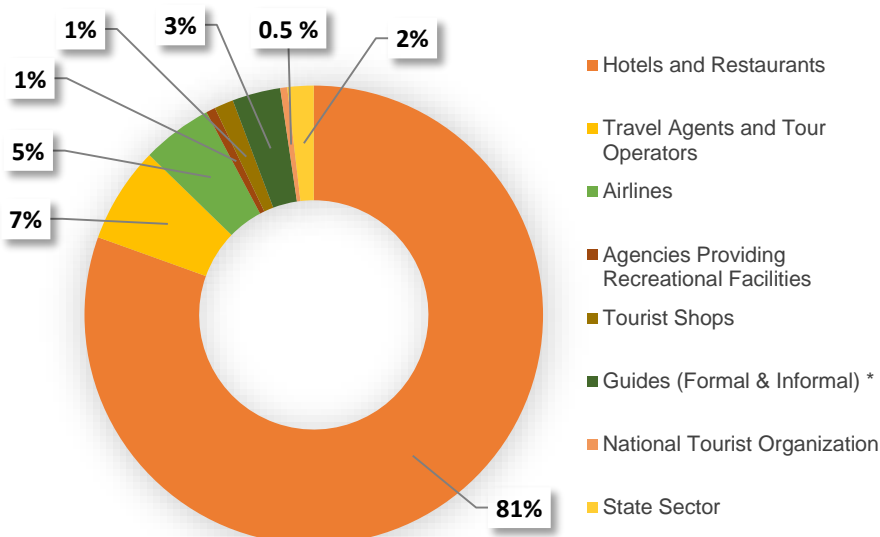

The total number of establishments covered in the 2020 survey was 4,815. The total number of employees in these establishments amounted to 175,990 as compared to 173,592 in 2019. This was an increase of 2,398 (1.4%).

Of the total tourism-based direct employment in 2020, 80% were employed in Hotels and Restaurants. Travel Agents & Tour Operators accounted for 6.8% of the total, Airlines 5%, Guides 3.4%, State Sector 1.9%, Tourist Shops 1.3%, the Agencies providing Recreational Facilities 0.7% and the National Tourist Organization 0.5%.

A classification of the total number in employment by broad occupational categories shows that 14.7% belonged to managerial, scientific and professional grades, 51.6% to technical, clerical, allied and supervisory grades and 33.6% to manual and operative grades (Table 27).

Table 27 in the Statistical Appendix shows only the volume of direct employment in the tourism sector of the economy. In order to access the total employment in the tourism industry, both direct and indirect, it is necessary to estimate the volume of indirect employment that tourist spending can generate in ancillary industries such as the handicraft trade, gems and jewellery shops, liquor shops laundries, etc. In 2020, the estimated total number for indirect employment was 171,764 (Table 29). Therefore, the total number in employment, both direct and indirect, in the tourism sector in 2020 can be estimated as 347,751.

**Chart 21: Distribution of employment in the tourism industry (percentage) -2020**

# PUBLIC SECTOR REVENUE

## 5.1 Public Sector Revenue

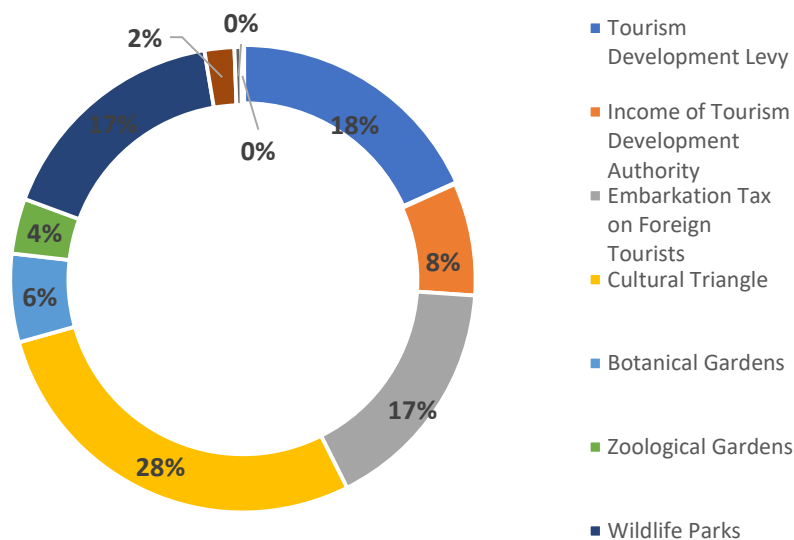

Public sector institutions derive revenue from tourism in variety of ways, namely direct and indirect taxes, fees and levies, profits from business undertakings, etc. However, statistics of revenue collections are readily available only from few sources, such as the Tourism Development Levy, Embarkation Tax, Income of Sri Lanka Tourism Development Authority, entrance fees to Cultural Triangle sites, Wildlife Parks, Conservation Forests, Museums, Zoological Gardens, Botanical Gardens, Bandaranaike Memorial International Conference Hall (BMICH), etc. The revenue collections from some of these sources are given in Table 40 in the Statistical Appendix.

In 2020, the revenue collected from the listed sources amounted to Rs. 2,961.80 million, compared to Rs. 9,586.8 million collected in the previous year.

Out of the total revenue collected in 2020, the top three contributors were; Cultural Triangle Entrance Fees – Rs. 830.60 million, Tourism Development Levy – Rs. 540.90 million and the Wildlife Parks – Rs. 494.90 million. The revenue earned from Embarkation Taxes was 489.50 million while the Botanical Gardens, Zoological Gardens and Conservation Forests\* also contributed considerable amounts, recording Rs. 181.8 million, Rs. 113.7 millions & Rs. 61.3 million, respectively.

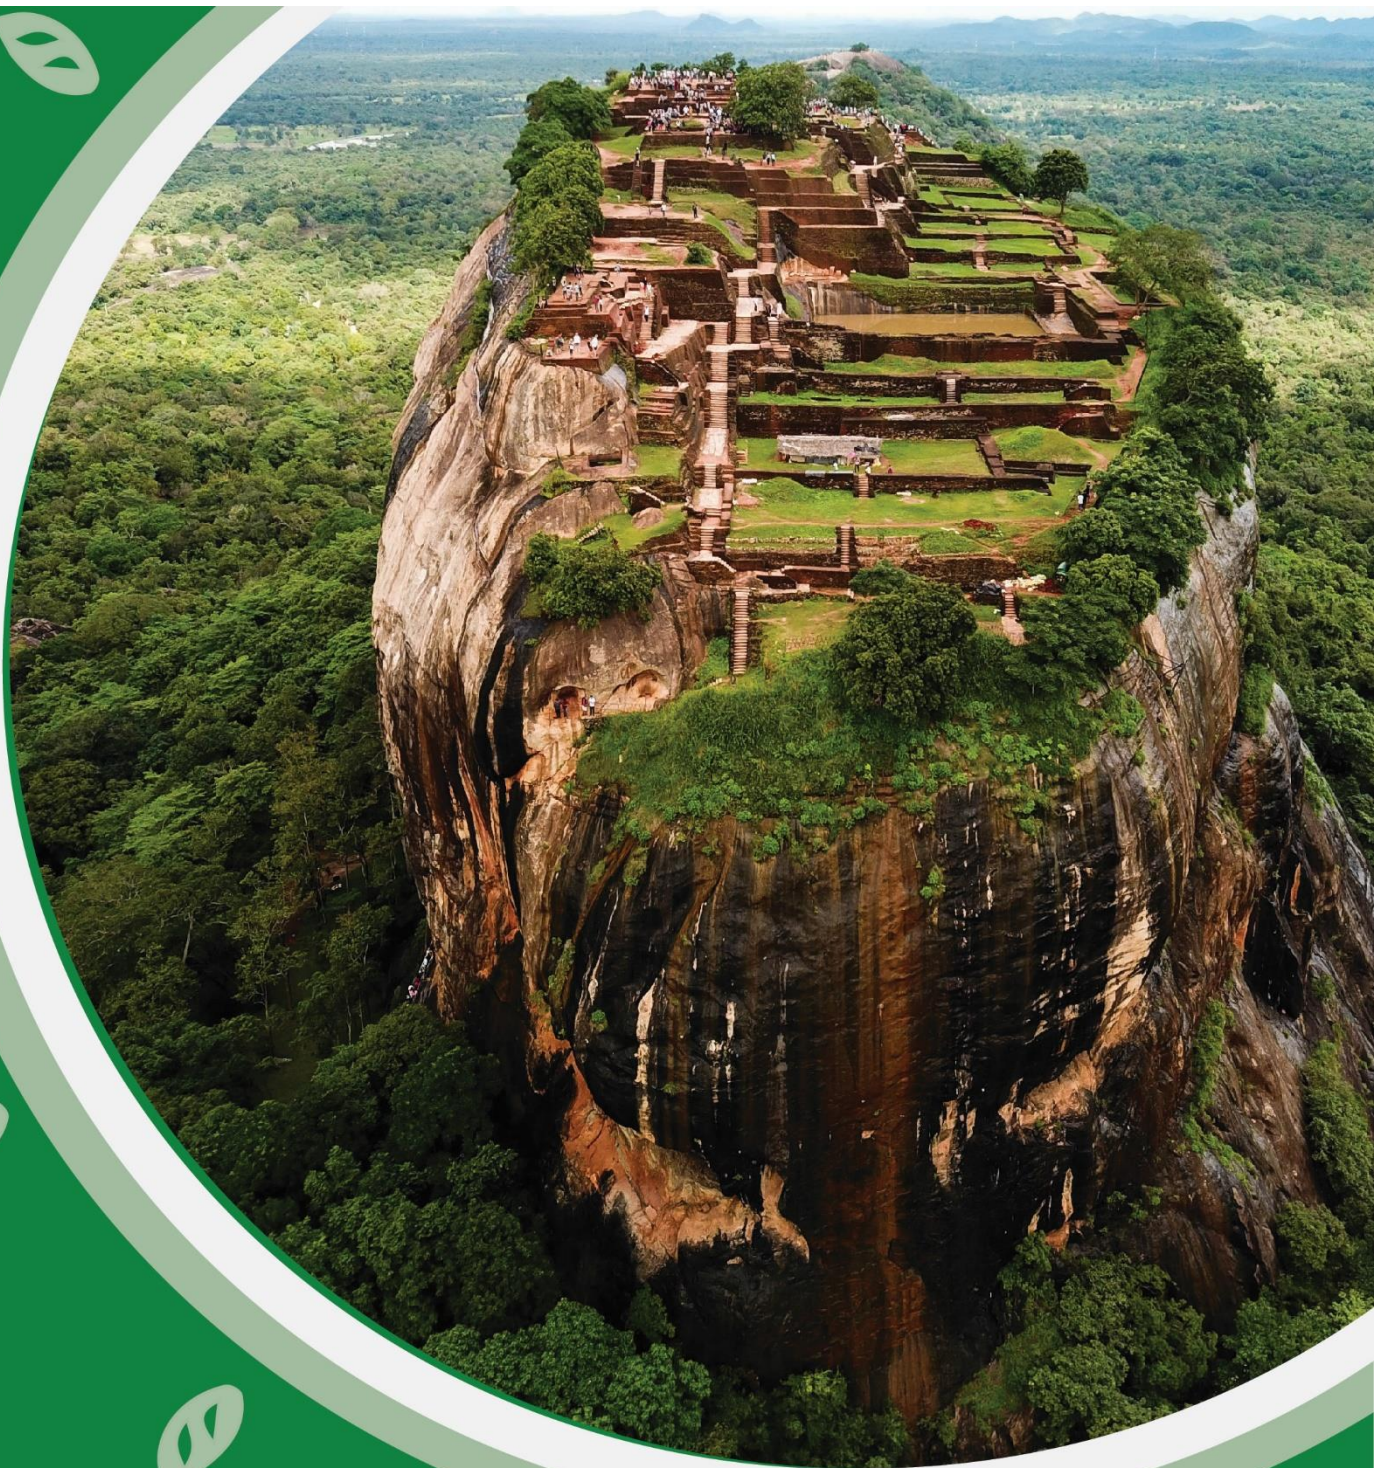

The government earns substantial amount of income in addition to the above revenue as indirect taxes such as taxes from electricity, water, mail services and telecommunication, lease rentals etc. The figures presented below are only partial indicators of the total revenue from tourism.

**Chart 22: Distribution of public sector revenue from tourism (Percentage) – 2020**

Source: SLTDA and relevant line agencies

**FOREIGN TRAVEL  
BY SRI LANKANS**

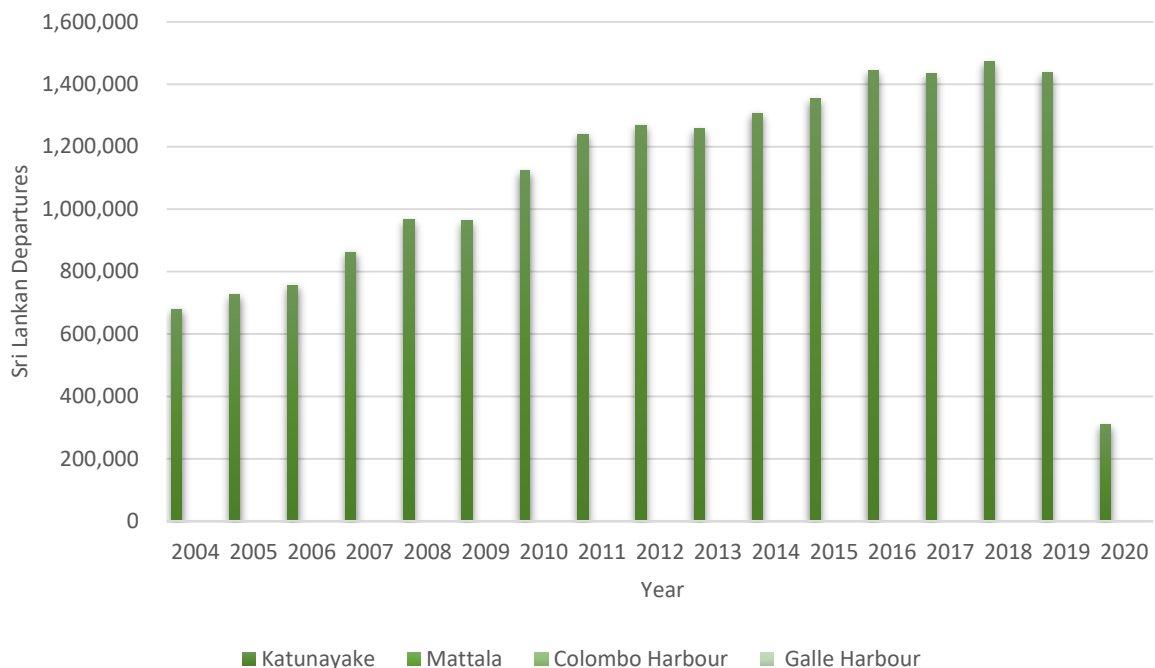

## 6.1 Foreign Travel by Sri Lankans

313,914 Sri Lankans travelled overseas during the year 2020. This was a decline of 78% compared to the previous year when the total departures were 1,441,462 (Table 18). This could be likely due to the pandemic related conditions including the closure of borders.

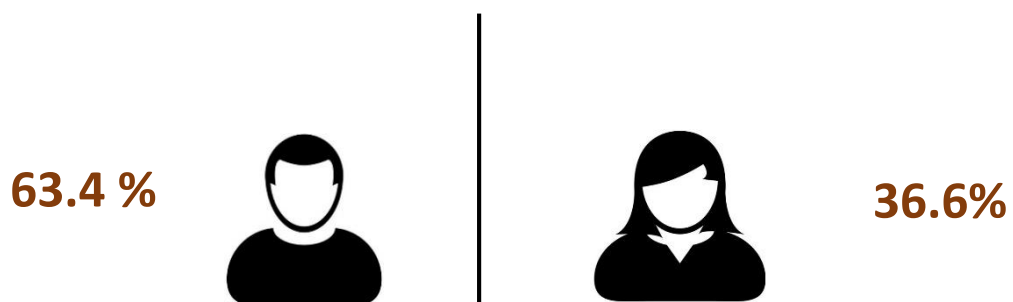

Departures of Sri Lankan nationals analyzed by the mode of travel and port of departure are shown in Table 18 and 28. In 2020, the mode of overseas travel of 99% of Sri Lankans was by air. Out of the total departures 98.6% of Sri Lankans used Katunayake while 0.9% of departing Sri Lankans used Galle Harbour as the port of departure.

An analysis of Sri Lankan Departures by gender reveals that 63% are male while 37% of departing Sri Lankans are female (Table). Further the distribution of departures by first port reveals that the top five first ports of departing Sri Lankans are Dubai, Doha, Chennai, Singapore, and Kuala Lumpur (Table 19).

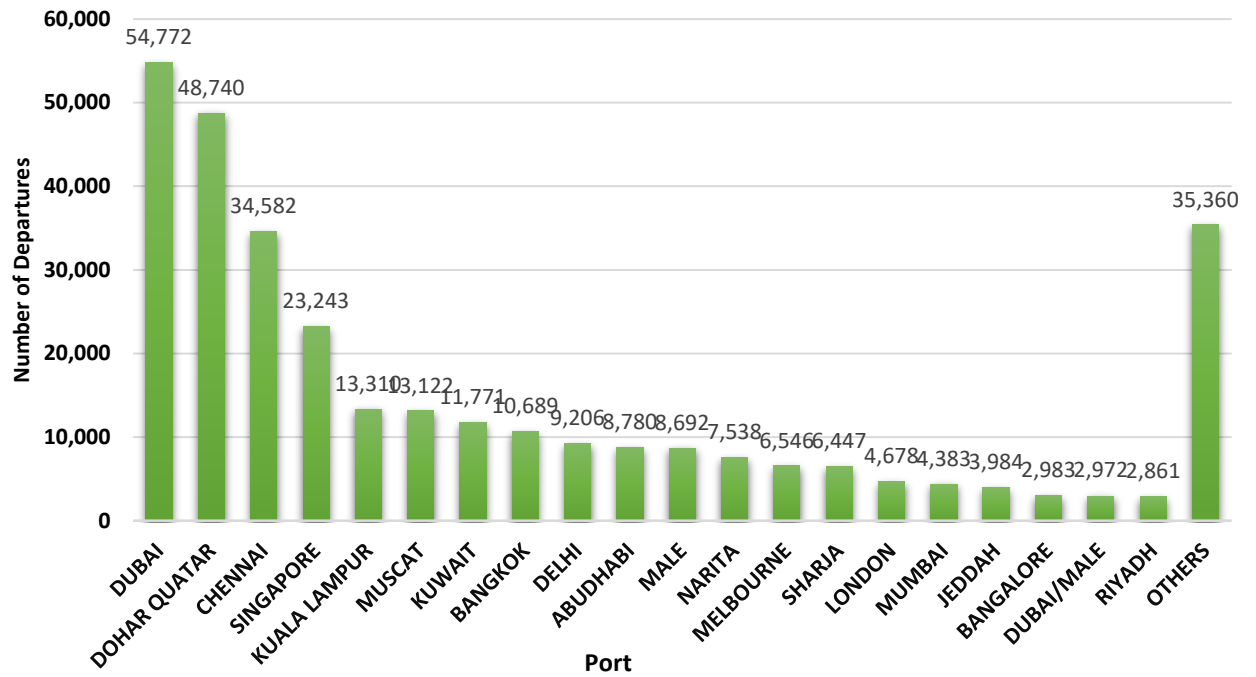

**Chart 23: Sri Lankan departures - 2004 to 2020**

(1) Seasonal indices are compiled by taking average arrivals per month as 100

(2) Seasonality ratio = Highest Monthly Arrival / Average Arrival per month

(3) Coefficient of Seasonal Variation is obtained by calculating the standard deviation of the Seasonal indices

During the year 2020, 34 airlines including the national carrier Sri Lankan Airlines operated flights to Sri Lanka (Table 17 and Table 8). The number of flights operated by these carriers amounted to 1,247 per week. The average seats available in incoming flights per week was 142,782. Top three airlines carrying more than 200,00 tourists to Sri Lanka were Sri Lankan Airlines, Emirates and Qatar Airways.

In analyzing the arrivals by carrier, Inter regional flights have contributed to 63.3% of the arrivals while intra - regional flights and charter flights contributed to 26.2% and 5.3% respectively (Table 7). During the year under review there were around 45 charter airlines operating to Sri Lanka.
