

# Monthly Tourist Arrivals Report:

A Monthly Snapshot of International Arrivals to  
Sri Lanka from Immigration Statistics

**July 2022**

Sri Lanka Tourism Development Authority

---

## Introduction

The following document provides a synthesis of the most recent July, 2022 international visitor arrivals data sourced from the Department of Immigration & Emigration. The data is current as of 31<sup>st</sup> July 2022, and subject to change. The data provides an overview of month-on-month and annual changes in visitor arrivals to Sri Lanka from international source markets. The data is meant to provide an overview of how travel and tourism is performing to Sri Lanka.

This report is developed by the Research & International Relations Division at Sri Lanka Tourism Development Authority (SLTDA), with the technical support from the Australian Government funded Market Development Facility (MDF Sri Lanka) and Twenty31 Consulting Inc. Questions, comments and feedback are welcome and will support the future amendment and enhancement of the report to ensure it meets the data and insights needs of Sri Lanka's Government and industry stakeholders.

## Table of contents

Targeting VFR segment as a viable source for Sri Lanka Tourism.....	12
International tourists arrivals by country of residence.....	14
Main last departure airports and airlines to Sri Lanka, July 2022.....	18

## Summary

The total number of international tourist arrivals to Sri Lanka during July 2022 was 47,293. Tourist arrivals for the month of July have plunged by almost 55.5%, in comparison to March 2022, which recorded the highest number of tourist arrivals up to July, 2022. This could be a result of internal factors such as the effects of the current economic and political situation in Sri Lanka and the external factors such as the

rising inflation and slowing growth that is indicative of stagflation in the main source markets.

As of 31<sup>st</sup> July 2022, 458,670 international tourists had visited Sri Lanka for this year. The largest source markets recorded for the month of July were the United Kingdom, India, Germany followed by France and Canada.

**Table 1. Monthly tourist arrivals, July 2022**

Month	2018	2021	2022	% change 2022/21	% change 2022/18

## Tourist arrivals by region and percentage share July 2022

Map 1. Tourist arrivals by region and percentage share

Europe became the largest source of tourist traffic to Sri Lanka with 62.8% of the total traffic received in July 2022. Pent up demand especially from countries such as the United Kingdom, Germany and France is likely to have driven this growth momentum. Asia and the Pacific accounted for 23.4% of total arrivals. The Americas accounted for 10.6% of the total traffic while the Middle East accounted for 2.7%.

The gradual improvement in international travel is once again threatened and it is anticipated that the spillovers from Ukraine war will sharply hasten the deceleration of global economic activity. The war is leading to high commodity prices, adding to supply disruptions, increasing food insecurity & poverty, exacerbating inflation contributing to tighter financial vulnerabilities and policy uncertainty (Global Economic Prospects, 2022). Coupled with these, the internal factors such as the current economic crisis could create dual shocks on tourism industry.

## Top primary markets and top potential markets

### Top primary markets - January ~ July 2022

Note: The top primary markets for Sri Lanka have been identified using visitor arrivals data, during the last six months. The previous methodology used to identify the markets was altered due to the current arrival trends in the source markets and the economic crisis in Sri Lanka. The intention is to track these source markets on a go-forward basis to understand future performance for Sri Lanka's tourism economy, including during the projected international tourism recovery period, 2022-2025.

## Top Potential markets - January ~ July 2022

Note: The top primary markets for Sri Lanka have been identified using visitor arrivals data, during the last six months. The previous methodology used to identify the markets, was altered due to the current arrival trends in the source markets and the economic crisis in Sri Lanka. The intention is to track these source markets on a go-forward basis to understand future performance for Sri Lanka's tourism economy, including during the projected international tourism recovery period, 2022-2025.

## Top ten source markets

### July 2022

The United Kingdom, India, Germany, France and Canada were Sri Lanka's top five international tourist generating markets for the month of July this year. The United Kingdom was the largest source of tourist visits to Sri Lanka with 20% of the total traffic received in July. India and Germany accounted for 13% and 8% of the total traffic respectively while France and Canada accounted for 7% (both). In

comparison to last month the source markets such as Germany and France have moved up the list of top ten markets whereas India and Australia have moved down the list. The negative spillovers of the war in Ukraine and the rising inflation could be the reasons behind the changing market trends which could create detrimental effects on tourism in Sri Lanka.

Chart 3. Comparison of arrivals from top ten markets to Sri Lanka, June 2022 / July 2022

# Tourist arrivals by purpose of visit

## July 2022

An analysis of tourist arrivals by purpose of visit reveals that a majority (46%) of tourists had visited Sri Lanka for visiting friends and relatives, while for 38% of tourists the main purpose was pleasure/vacation. In comparison to April 2022, the tourists who had visited Sri Lanka for pleasure/vacation purposes decreased while tourists who came for VFR purposes increased. The reason could be the expatriates who are visiting their friends & relatives as 25.4% of arrivals from the United Kingdom, 13.9% of arrivals from Canada and 10.7% of arrivals from India during the period from May to July were for the purpose of VFR. During the month of July only 6% of tourists had visited for business related purposes. 1% had visited for health related purposes, while 1% and 0.02% had visited for purposes such as sports and education.

## Main last departure airports and airlines to Sri Lanka July 2022

An analysis of the last departure airports to Sri Lanka reveals the vital importance of air connectivity in the tourism industry. As depicted in the below Chart 5, for around 53% of tourists the last airports had been Doha, Dubai and Chennai. Further, in terms of airlines, Sri Lankan Airlines, Qatar Airways and Emirates were the top airlines, handling 79% of tourists to Sri Lanka.

Chart 6. Main last departure airports to Sri Lanka, July 2022

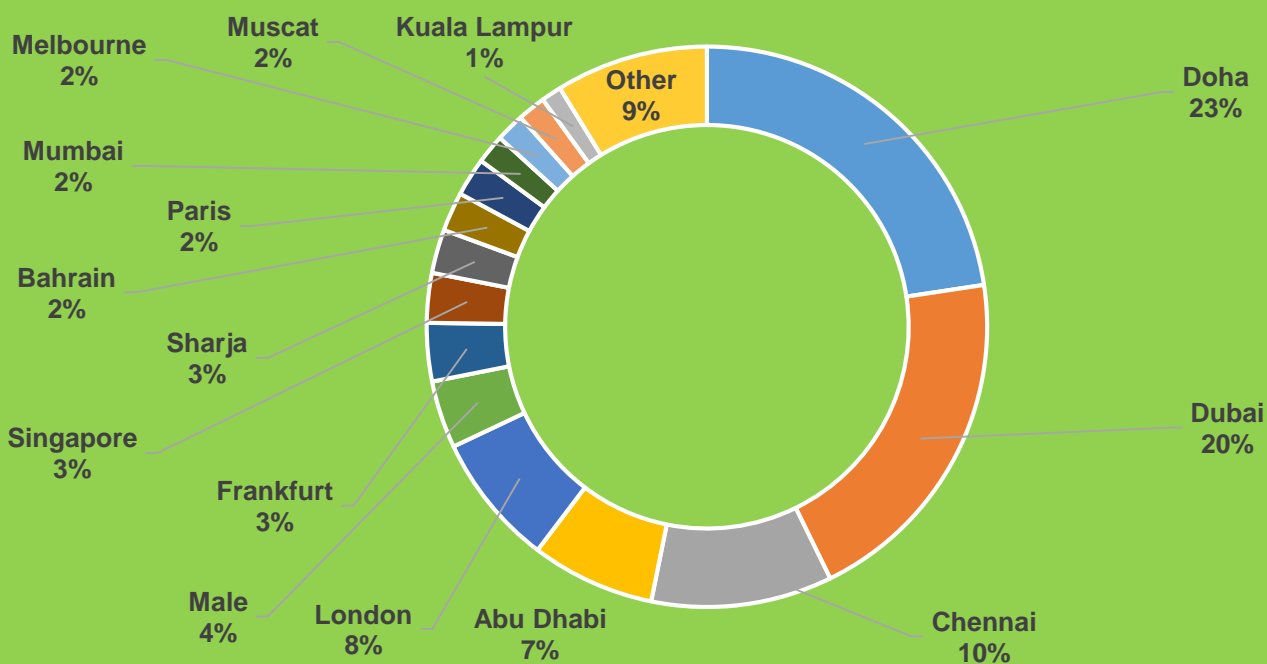

Chart 7. Main airlines to Sri Lanka, July 2022

## Top ten markets versus main last departure airports and main airlines to Sri Lanka July 2022

The below tables depict the main last departure airports and airlines analyzed by top markets to Sri Lanka. Sri Lankan Airlines and IndiGo are the most popular airlines for Indians. Air Arabia has become the most popular airline among tourists from Russia in the absence of the Aeroflot which ceased operations after 2<sup>nd</sup> June and Fly Dubai which suspended its operations by mid July. For majority of travellers from France, Spain and Canada, Qatar Airways is the most preferable airline and Doha is the main last departure airport. The figures further indicates that for tourists from United Kingdom, Australia, India, Netherland and Germany, Sri Lankan Airlines is the most preferable Airline indicating the importance of destination accessibility in driving visitation.
