

The **Government E-procurement portal** is now in operation on a trial basis with the assistance of e-GP Secretariat of the Ministry of Finance and all four entities of Sri Lanka Tourism are included in the process. At the initial stage, the system is implemented on a phased-out basis for a selected number of government entities.

This platform would immensely contribute to streamline and expedite the procurement process of Sri Lanka Tourism.

Only national shopping procurements could be floated at present and National competitive bidding (NCB) and International competitive bidding (ICB) procurements will be accommodated in the times to come. We encourage the individual vendors who are registered under the respective entities of Sri Lanka Tourism to register with “E-Government Procurement platform.”

**CHAMPIONING NATIONAL
POLICY PRIORITIES
INCORPORATING TECHNOLOGICAL
ADVANCEMENTS**
