VISION

To be recognized as the world's finest island for memorable, authentic and diverse experiences.

MISSION

To be a high value destination offering extraordinary experiences that reflect Sri Lanka's natural and cultural heritage, socially inclusive and environmentally responsible, and provide economic benefits to communities and the country.

GUIDING PRINCIPLES

1. **CAPTURING THE BENEFITS OF TOURISM FOR SRI LANKA**

The tourism industry makes a significant contribution to the growth and diversification of Sri Lanka's economy. It should be considered a key pillar of the economy and a priority in government decision making. Facilitated by the public sector, the private sector should play a lead in the development of the tourism industry.

2. **DEMOCRATISATION OF ECONOMIC PARTICIPATION**

Tourism should result in optimal economic benefit to Sri Lanka's economy by maximizing net foreign exchange income, spreading development throughout the island, and creating gainful employment for Sri Lankans. Tourism growth should stimulate and deepen the value chain and ensure viable, long term economic operations, providing socioeconomic benefits that are fairly distributed to all stake holders.

3. **CONSERVATION AND WORLD-CLASS MANAGEMENT OF ASSETS**

Tourism development should promote the conservation and enhancement of Sri Lanka's natural environment and its historical, social and cultural heritage, avoiding harmful effects. It should make optimal use of environment resources- maintaining essential ecological processes and helping to conserve natural biodiversity.

4. **LOCAL COMMUNITY INVOLVEMENT**

Tourism should respect the sociocultural authenticity of host communities, conserve their built and living cultural heritage and traditional values, and contribute to intercultural understanding and tolerance. Tourism development should involve local communities in a real, holistic capacity. Strong political leadership, including regional and local government, should foster informed, wide participation of all relevant stakeholders and support consensus building.

5. **MEMORABLE EXPERIENCES ROOTED IN HERITAGE**

All tourism services and activities should be visitor-centric and rooted in the environment, religious, social and cultural heritage of Sri Lanka. They should provide a high level of visitor satisfaction and ensure a meaningful visitor experience, providing learning opportunities and raising awareness about best tourism practices.

6. **RESPONSIBLE DESTINATION MARKETING**

Sri Lanka should be marketed responsibly to highlight the country's distinctive environment, traditions and attractions. Efforts should also be made to dispel longstanding misconceptions about the country and the tourism sector.

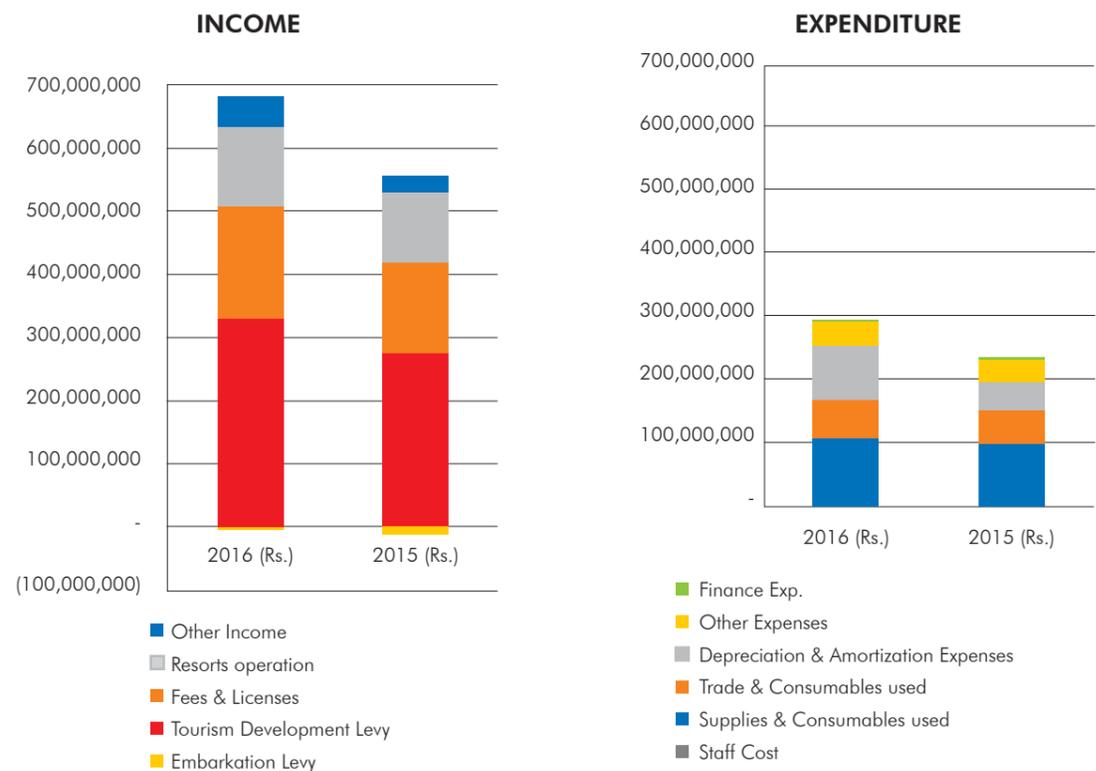

7. **SAFETY AND SECURITY FOR ALL**

A safe and secure environment should be ensured for all visitors, investors and communities as well as animals.

Asia continued to be our main source market with India and China leading the way, accounting for 45.1 per cent of all arrivals. Western Europe remained second with a share of 31.4 per cent. Both these regions recorded double digit growth in 2016.

Message from the Hon. Minister of Tourism Development and Christian Religious Affairs

I'm pleased to issue this message to the 2016 Annual Report of Sri Lanka Tourism Development Authority.

During the year under review, 46 million more tourists crossed borders than the year before bringing the total number of tourists worldwide to 1.23 billion, a growth of 3.9 per cent compared to the year before. Out of this, Europe attracted the highest number of tourists (50.2%) while South Asia attracted the least (1.6%). However, the highest growth of all regions was recorded from Asia & the Pacific with a growth rate of 8.4 per cent.

Here in Sri Lanka, our growth story continued with tourist arrivals crossing the historic 2 million mark for the first time in our history in 2016. This meant that we welcomed over 250,000 more tourists than the year before which works out to a commendable growth rate of 14 per cent year on year.

More importantly, foreign exchange earnings increased by 18.05 per cent - from Rs. 405,492 million (USD 2,980.6 million) in 2015 to Rs. 512,293 million (USD 3,518.5 million) in 2016. We were also able to increase tourists' daily spend from USD 164.1 in 2015 to USD 168.2 per individual in 2016. As a result, tourism remained the third largest source of foreign exchange for Sri Lanka's economy.

Asia continued to be our main source market with India and China leading the way, accounting for 45.1 per cent of all arrivals. Western Europe remained second with a share of 31.4 per cent. Both these regions recorded double digit growth in 2016.

Meanwhile capacity in the classified and unclassified sectors increased from 19,376 rooms in 2015 to 22,336 rooms in 2016 with the average duration of stay also rising to 10.2 nights as compared to 10.1 nights in the previous year. Average room occupancy recorded a healthy 74.76 per cent (estimated) while total foreign guest nights in tourist hotels increased from 8,945,380 in 2015 to 10,595,118 in 2016, a growth rate of 18.4 per cent.

It is pleasing to note that employment (both direct and indirect) in the tourism sector also increased from 319,436, in 2015 to 335,659 in 2016.

These figures indicate healthy all round growth in our tourism sector. However, we will not remain complacent and in the year ahead will be focusing on improving domestic tourism as well by identifying and developing new tourism zones, focusing on improving the global perception of the country so that we attract higher spenders and ensuring services and standards are of a high quality. Towards this end many services offered by SLTDA such as licensing are being streamlined and also being automated wherever possible.

Our immediate targets are to further increase arrivals and earnings to well beyond USD 3.5 billion, attract at least US\$ 3 billion in Foreign Direct Investment, increase capacity to 45,000 rooms and provide employment to 500,000 individuals. Also high on the agenda will be absorbing the informal sector to the formal sector and upgrading quality standards of eating places in tourism zones.

While thanking the Chairman, Director General and all staff members of SLTDA for their contribution in 2016, I'm confident SLTDA will not find it difficult to achieve the goals we have set for the year ahead and I wish the institution every success.

Hon. John Amaratunga
Minister of Tourism Development and Christian Religious Affairs

Chairman's Message

I am proud to say that we, at the Sri Lanka Tourism Development Authority (SLTDA), are fully committed to this mission and the team is on the right track to double our tourism revenue and employment opportunities in the industry, by 2020.

Tourism is one of the key success stories in post-war Sri Lanka. There has been continuous growth in the industry after the end of the conflict period, and Sri Lanka has been identified by many travelers as one of the most exciting places in the world.

But, we still have a long way to go. It is important to understand that we are in the process of tapping into our untapped potential and enhancing our footprint on the global tourism map. We have focused heavily on adding value to the tourism experience we offer, by developing infrastructure, improving service standards and streamlining various aspects of the industry.

I am proud to say that we, at the Sri Lanka Tourism Development Authority (SLTDA), are fully committed to this mission and the team is on the right track to double our tourism revenue and employment opportunities in the industry, by 2020.

The year 2016 was a milestone for our industry as we surged to a new limit of over 2 million arrivals in 2016, an increase of 14% over the previous year's 1.7 million arrivals.

The foreign exchange earnings increased by 18.5% from Rs. 405,492 million (USD 2,980.6 million) in 2015 to Rs. 512,293 million (USD 3,518.5 million) in 2016. Foreign currency expenditure per tourist per day recorded an increase of USD 4.1, from USD 164.1 in 2015 to USD 168.2 in 2016.

In 2016, the tourism sector continued to perform well and was able to retain as one of the three main sources of foreign exchange earners for Sri Lanka, alongside foreign remittances and textiles and garments.

I also wish to extend my sincere gratitude to the government of Sri Lanka, the Ministry of Tourism Development and Christian Affairs and other institutions coming under the ministry for their continuous support.

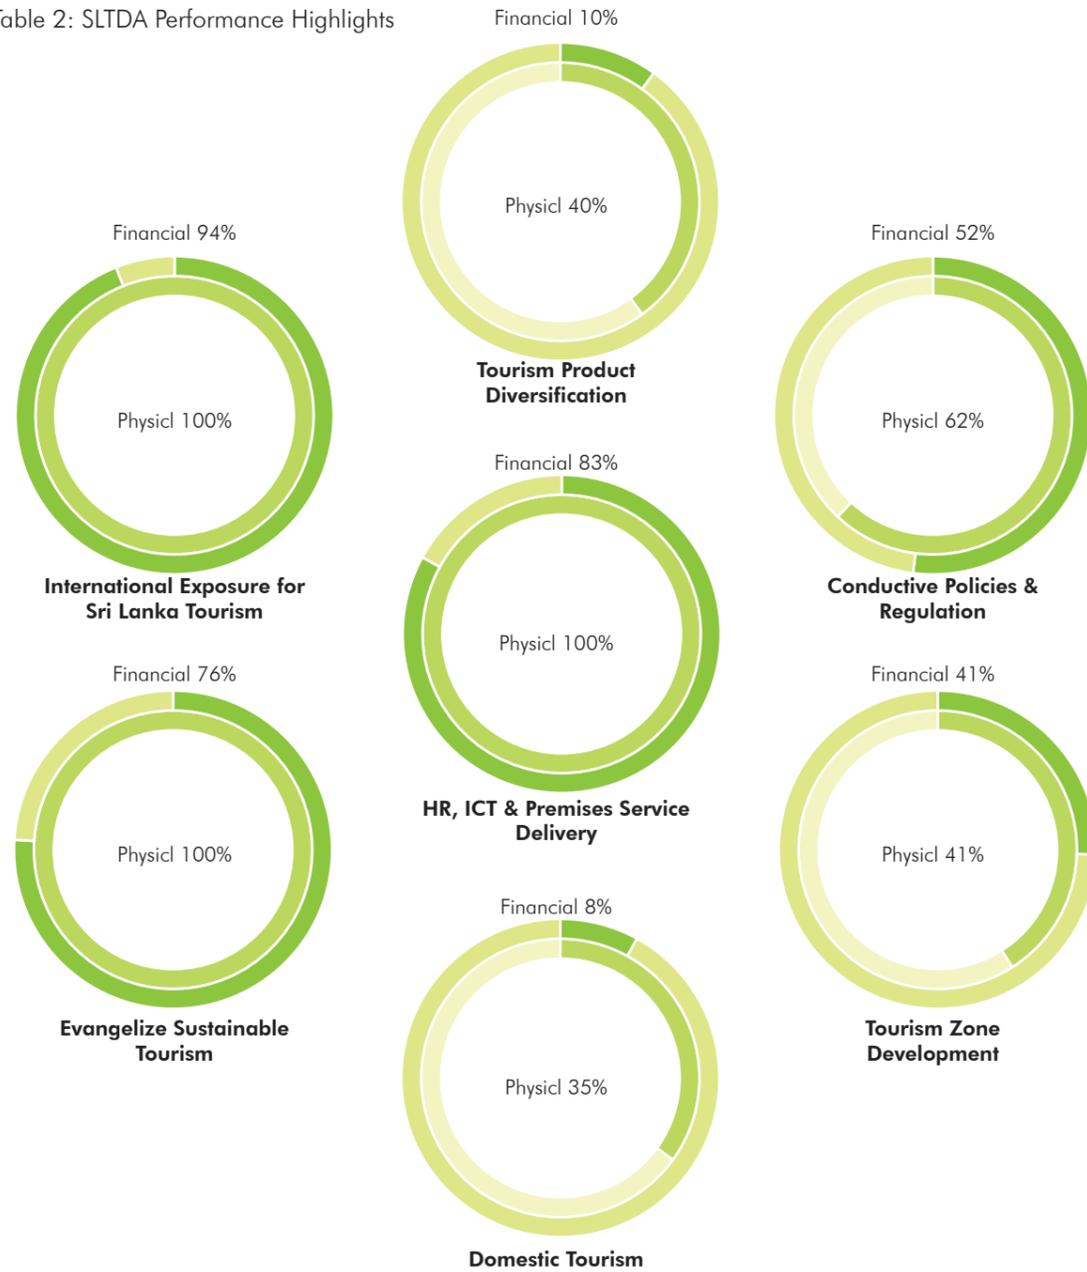

I hope that the brilliant performance of the tourism sector in 2016 will set great momentum to achieve the end objectives of the four-year Tourism Strategic Plan (TSP) 2017 - 2020.

China was the second major tourist producer with a share of 13.24 percent in 2016. The highest tourist producers namely India and China claimed almost one third of the total tourist traffic to the country. United Kingdom became the third major source of tourism to the country claiming 9.17 percent of share out of the total tourist traffic.

WHAT WE ACHIEVED IN 2016

Value addition to the industry

Comprehensive publications on qualitative and quantitative data relating to tourism are published regularly by the Research and International Relations Division. These include Monthly Statistical Bulletins, Annual Statistical Report and the report of the Survey on Departing Foreign Tourists from Sri Lanka which indicates the performance of Sri Lanka tourism in terms of tourist arrivals, foreign exchange earnings, creation of employment opportunities, hotel occupancy rates, travel patterns and behaviour, places of attraction, facilities and services used, and expenditure of tourists.

The Unit for National Investment in Tourism or One Stop Unit (OSU) of the SLTDA provides a centralized facilitation service to potential investors to establish new tourism investment projects in Sri Lanka simplifying and expediting the approval process for construction in conjunction with other government agencies. SLTDA projects 4 m tourist arrivals by 2020 which will require approximately 70,000 – 80,000 hotel rooms catering to the tourism economy. OSU has granted a positive contribution to achieve the target by adding new rooms to the national room capacity through new investment projects. Compared to the last two years, OSU's contribution to increase the national room capacity has shown a considerable growth and it is projected that it will grow significantly in next couple of years. According to the statistics of OSU facilitated hotel investment projects which are currently under construction, 7,139 new hotel rooms will be added in the period 2017-2020. This number will be higher with the new projects which will be submitted to the OSU during the next two years. OSU approved 41 projects in 2016, compared to an overall approval of 262 projects from 2010 – 2016. The investment in these approved projects was USD 145 m, and the geographical locations of these are as follows:

Table 5: Projects under construction in 2016

A total of 124 projects out of the total 262 projects approved are in operation by 31st December 2016 and added 6,367 rooms. The following shows the construction status of the approved 262 projects:

SLTDA operates and manages 04 trading resorts, 02 non-trading resorts and has leased out the management of 37 rest houses (Public Administration) to private sector individuals.

The National Holiday Resorts at Nuwaraeliya, Bandarawela, Kataragama and Anuradhapura are the 04 trading resorts. Accommodation facilities, primarily for domestic tourists are provided at minimal rates. Significant efforts were taken to improve the general maintenance and repair of these facilities this year with an investment exceeding LKR 16m.

Development of the non - trading resort at Passikudah follows the 2010 comprehensive masterplan. Currently, 14 blocks of lands are leased out to the private sector and on these 14 there are 12 operational hotels. Basic infrastructure facilities such as electricity, water, sewage treatment are provided by the SLTDA. Investments to Passikudah in 2016 was LKR 180.5m, with the following breakdown:

- 46m on Design and construction of 210 street lamps
- 20m on Design & Construction of main access road - stage II
- 100m on purified water
- 14.5m on Construction of a ground reservoir pump house and security hut

The non- trading resort at Bentota provides a common sewage treatment facility and water supply to hoteliers. Additionally, SLTDA provides overall security and cleaning services to the resort.

As further value addition to the industry, SLTDA launched an online business licensing system (OTBLS) that eliminates the need for physical visits to SLTDA for all tourism service providers. In addition, a Tourism Development Levy (TDL) payment system was also introduced to speed up processing.

Resort Development

Kalpitiya

Kalpitiya product development is in stasis. A common observation of potential investors is the lack of common infrastructure and uneasy access. Resolution of these issues are pending as responsibility is shared and distributed among other ministries and authorities whose priorities are not aligned from a tourism angle.

Kalpitiya was originally conceptualized in 2014 as an Integrated Tourism Resort that targeted a new product in Sri Lanka, an 'Ocean Based Island Resort' that would be environmentally sensitive. In the

first phase 12 islands were vested with Sri Lanka Tourism Development Authority and a development master plan was developed along with a strategic environmental study conducted. The resort is to consist of Dutch Bay, Portugal Bay and 9 of the most attractive islands; Karaitive, Ippantive, Periyarachchi, Eramative and Sinnerarachchial, Oddakareltive, Battalangunduwa, Palliyawatta, and Vellai. It was envisioned the total development area would be ~5000 acres, and the resort would consist of 4000 rooms, generating 16000 direct employment opportunities and create a revenue opportunity of USD 175 m to the developer (at 80% occupancy at USD 150 per room night).

Due to changes in the government stance - with the cancellation of the process by the Ministry of Economic Development in 2010 - only 2 show interest in proceeding out of the original 14 companies selected for cabinet approval.

Currently, a total of 3 proposals are pending for differing reasons. The first, Sun Resort Lanka (Pvt) Ltd has expressed interest in constructing water bungalows off Vellai Island. However, this requires a lease on the sea-bed which has never been done in Sri Lanka previously and the matter on the sea bed lease is held up with the Divisional Secretary of Kalpitiya. The second, Qube Lanka Leisure (Pvt) Ltd., would like to build on Ippantive Island, and they continue to pay the lease rental – now for over 08 years. However, there is an outstanding issue in relation to a fishing community that occupies part of the Island during the season who are unwilling to move to an alternate location. The third, a new development proposal for Uchchamuni island meeting SLTDA requirements was forwarded to the Officials Committee on Economic Management (OCEM) and to the Cabinet Committee on Economic Management (CCEM) for approval.

Kuchchaveli

Kuchchaveli is in stasis. A common complaint of potential investors is the high price of the upfront lease payment. Kuchchaveli was initially conceptualized in 2010 as a Beach Resort on the East Coast in close proximity to Trincomalee. The project encompasses 510 acres of beach front property located between the Irrakkandy and Salapayaru bridges. This location has good road, electricity and water. The project was expected to result in 3,500 rooms with an employment generation of 14,000 and a revenue stream of USD 150m (at 80% occupancy and USD 150 per room night)

However, Trincomalee is 08 hours by road from the main airport in Sri Lanka, a significant disincentive. The main complaint of potential investors is the requirement of an up-front payment of LKR 20m per 01 acre plot, which they feel is overvalued. As a counter point however, it must be stressed that the sole resort operator at this location, Jungle Beach Resort operated by Uga Escapes Management (Pvt) Ltd as a high-end facility is fully booked 3 months in advance.

In order to understand the various bottlenecks and how to resolve these issues within the current context, a project was initiated in August 2016 with a team of experts from the Center for International Development (CID) at Harvard University headed by Professor Matt Andrews, under an initiative from the Prime Minister's office. The team consists of facilitators from Harvard along with officials from the BOI and SLTDA, and will run through April 2017.

Yala Wildlife Resort

There has been significant development progress on Yala Wildlife Resort (YWR). The common access road to the northern part of the resort was completed, along with a new high tension electricity supply to the northern part of the resort. Chena huts by Uga Escapes Management (Pvt) Ltd commenced commercial operations.

YWR was conceptualized as a higher end product providing an immersive experience for wildlife enthusiasts. The resort is contiguous to the Yala national park and located just outside the 1 mile buffer zone. There are no fences or other separations between the wildlife park and YWR which

leads to the immersive experience. Of the 07 investors at YWR, Chena Huts is the first to commence commercial operations Wild Coast Tented Lodge was under construction. Two of the approved investors, R&R Company (Ltd) and Ascot Leisure (Pvt) Ltd. have not commenced construction as yet. Dedduwa Lake Resort

This project is in the early stages and land acquisition is progressing; 1732.03 acres have been acquired out of a planned 1800 acres. Dedduwa borders Geoffrey Bawa's Lunuganga residence and property. It is located east of Bentota, comprises of water bodies, marshy lands, and abandoned paddy fields. The iconic Lunuganga property served as the model on which this resort is based.

For International and Domestic Tourists

Tourism is a shared subject between the national government and the provincial councils. SLTDA, as the apex national tourism development and regulatory authority, actively funds the building of provincial tourism infrastructure, and elevating local tourism service delivery levels through the Domestic Tourism and Community Relations division that was formed in July 2015. Such efforts are typically executed in collaboration with the District Secretary and local authorities with significant funding coming from SLTDA.

This year, SLTDA spent LKR. 37 m across eight infrastructure development projects in six provinces that were budgeted at LKR. 100.3 m by working with the Provincial Tourism Ministries (PTM) and District Secretaries (DS):

Province/ District, Authority	Project	Budget (LKR m)	Spent (LKR m)	Status

Table 6: Physical and Financial status of Provincial Tourism Development

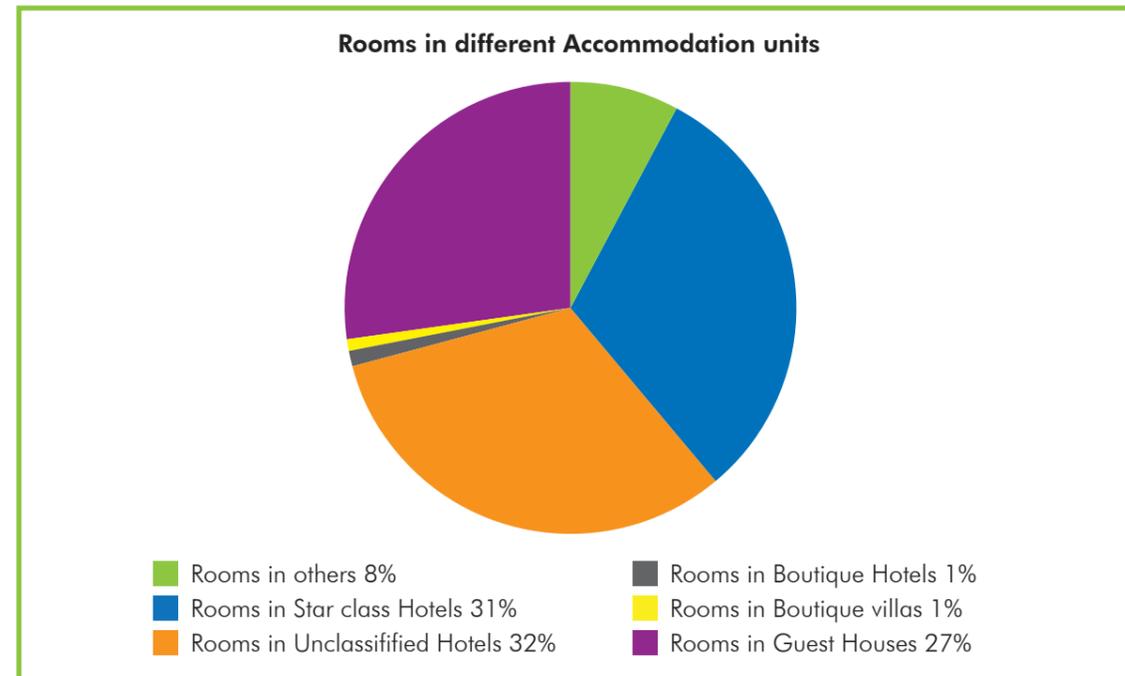

Furthermore, in terms of elevating service delivery levels, SLTDA in conjunction with IFC conducted four training sessions at Arugam Bay, Passikudah, Batticaloa and Mannar. Out of the 200 participants, the 100 who successfully completed the program were issued Tourist Facilitator ID cards. Additionally, multiple awareness and sensitization programs for local youth were carried out throughout the year to ensure proper treatment of visitors.

Multiple other activities were successfully conducted by the Domestic Tourism unit. These include a life guard station in Anuradhapura for the Poson season. Popular heritage activities were also funded such as the Dalada Perahera in Kandy (in August), the Kalaniya Perahera (in January), the Gatabaruwa Perahera (in September) and the Gangaramaya Perahera (in February). Beach clean ups and training tuk tuk drivers were additional programs that were conducted.

Another primary function of SLTDA is to register, regulate and ensure standards at establishments providing accommodation and other tourist services. A new Hotel Classification Committee was appointed on 20th June 2016 for a two year period. The committee inspected 56 establishments, determined 27 to be within the star class categorization, and downgraded six establishments to guesthouses. In the accommodation sector, the following were the registrations during the year, and at year end:

Celebration of 50 years of Sri Lanka Tourism

2016 was the 50th anniversary for Sri Lanka Tourism. This was celebrated through multiple events, some of which are described under other headings.

Sri Lanka Tourism celebrated World Tourism Day on September 27th, 2016 focusing on the UNWTO's theme for this year, "Tourism for all – Promoting Universal Accessibility." This year's theme was of special significance to Sri Lanka Tourism as it works towards implementing the statutory requirement of making the country's tourism sites accessible to all visitors.

This year's celebration unveiled the "50 best tourism experiences in Sri Lanka", launching of the documentary 'Adaraneeya Sri Lanka' and a seminar on 'Tourism for all - Promoting universal accessibility.' The documentary 'Adaraneeya Sri Lanka' program was launched at this event which is a domestic tourism promotional program designed to showcase lesser known tourist attractions in Sri Lanka. This programme consisted of a series of activities to promote domestic tourism along with the tagline in Sinhala "Dakimu, Widimu and Rakimu" (See, Feel, Protect). It has been planned to telecast 27 episodes by the Sri Lanka Rupavahini Corporation.

In addition, a seminar on "Tourism for all - Promoting universal accessibility" discussed the areas of policy and regulatory framework for accessible tourism, good practices and making an enabling environment for accessible tourism. The resource persons for the seminar were Mr. M. Ramamoorthy, Director (Planning), Ministry of Social Empowerment and Social Welfare, Mr. S. Hariharathamotharan, Lecturer, School of Social Work, National Institute of Social Development and Mr. Vijitha Perera, Member of the Tourist Hotels Classification Committee.

Two successful street Food festivals were conducted in June and during the Christmas season in support of the 50th Anniversary of Sri Lanka Tourism.

International Exposure and Capacity Building

SLTDA invested in growing internal team awareness of local and international best practices through a two pronged approach. The first was the participation in overseas tourism related conferences and by organizing an international UNWTO Conference locally.

Nominees of SLTDA attended 10 conferences in eight overseas locations with 10 people in total participating. The participants were from a variety of grades including the Honorable Minister and his support staff, the Chairman, the Director General, Director, Assistant Director, Legal Officer and Junior Manager Categories. It is hoped participation in these events serves as an educational tool and assists in implementing international best practices in Sri Lanka. The local UNWTO conference held in Passikudah was titled "Tourism: A Catalyst for Development, Peace and Reconciliation", and it enhanced Sri Lanka's reputation among the international participants at this conference. The conference also created a forum to springboard future collaboration and partnership in marketing and rebranding of post-conflict destinations. The conference drew a total of 60 participants from the countries of Australia, Bangladesh, Cambodia, China, Denmark, France, Haiti, Hong Kong, Hungary, India, Iran, Italy, Japan, Jordan, Macao, Malaysia, Maldives, Nepal, Romania, Seychelles, Thailand, UK, USA and South Africa. The conference was facilitated and moderated by experts in tourism at the national and international levels.

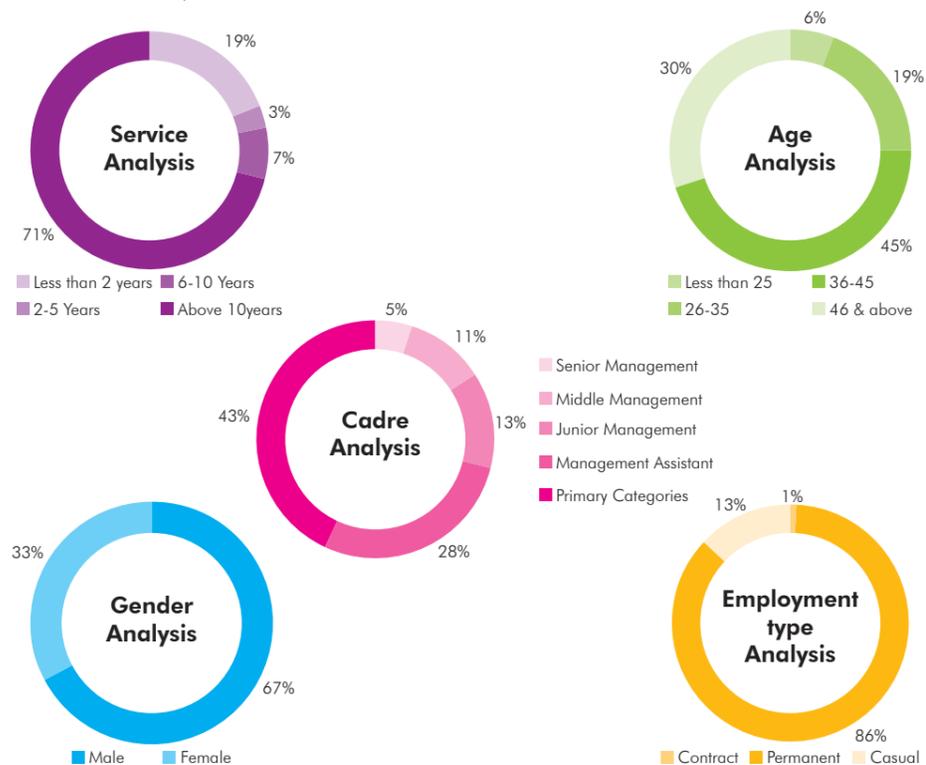

Participants at UNWTO Conference at Passikudah

In addition, under the aegis of the World Intellectual Property Organization (WIPO), an initial steering committee meeting was held on 4th May 2016 to discuss feasibility and next steps relating to the importance and applicability of Intellectual Property considerations in tourism.

Our employees

The effectiveness of SLTDA ultimately depends on the caliber and output of our employees. The total cadre at year end stood at 177. Out of our employees, 71% have 10+ years of experience at SLTDA, almost 50% are between 36 and 45 years of age, 33% are female, and annual staff turnover is 2%. In this era of rapid change, the 10+ year experience at SLTDA and the low turnover is a double edged sword; we must work harder to incorporate new approaches and thinking to absorb industry best practices. While fostering an enabling workplace, we remained steadfast in our efforts to bring out the best in our employees; this year, 99 employees were trained over 1,340 hours at a cost of Rs. 2.57 million, and five new recruitments made.

The Welfare Society is an essential facet of our HR strategy. The Society was proactive and creative in nurturing our team spirit. The staff and their families participated in various events organized by the Welfare Society, building stronger bonds between our staff.

Other Operational Details

To reduce manual workload of our employees, SLTDA launched an online travel inquiry management system, and a traveler feedback kiosk system. SLTDA also became the first government institution to move its IT infrastructure to Sri Lanka Telecom "Akaza" cloud platform. The ICT division also initiated a three-year strategy (Blueprint) on Information Technology Deployment for Sri Lanka Tourism (2017-2019). As per the blueprint, SLTDA is in the process of deploying several projects which help entities in the tourism sector to use common technologies and share resources, aiming to reduce costs and increase overall productivity. This plan will broadly cover technologies related to organizational efficiency, customer experience enhancement and marketing / promotions, and delivery of services to our stakeholders.

The Internal Audit department ensures SLTDA complies with best financial and operational practices. The 18 Internal Audit reports issued contain suggestions and recommendations for improvements. Actions taken by the relevant officers have resulted in minimizing costs and in streamlining processes through better internal checks. Further, Internal Audit also convened three quarterly Audit & Management Committee Meetings during this year.

The legal department provides advice for the day to day functions of SLTDA, liaises with the Attorney General's department, the legal draftsman's department, and files action when required. In addition, it also conducts board meetings, audit and management committee meetings and functions as the board secretariat. This year, 12 lease agreements were signed and eight service agreements signed. In addition, gazette No: 1963/28 was issued on the Code of Conduct of Tourist Hotels under Section 49 (1) (a) of the Tourism Act No: 38 of 2005.

(b) Sri Lanka Public Sector Accounting Standard 3

- (i) The nature and amount of change in an accounting estimate that could make an effect in the current period should be disclosed in the financial statements by the Institution, in terms of paragraph 44 of the Standard. (c) Sri Lanka Public Sector Accounting Standard 7

All property, plant and equipment should be revalued in the entire class in which the relevant assets belong to, if property, plant and equipment are revalued in terms of paragraph 49 of the Standard. However, the revaluation value amounting to Rs.1,378 million had been stated in the financial statements by revaluating only the land and the building in which the Head Office is located in the year 2008 without revaluating all the lands and buildings belonging to the Authority. The fair value of the lands and buildings of the Authority had not been indicated on not revaluating the other lands and buildings.

(d) Sri Lanka Public Sector Accounting Standard 8

- (i) The amount recognized as a provision should be the best estimate of the expenditure required to settle the present obligation at the reporting date, in terms of paragraph 44 of the Standard. However, the Institution had considered only the debtors time analysis in allocating bad debts and doubtful debts amounting to Rs.4,845,979 and it had not been considered on the individual debtors balances.
- (ii) Provisions should be made when an entity has a present obligation (legal or constructive) as a result of a past event in terms of paragraph 22 of the Standard.
